Annotation Finally! A book that makes blood and the circulatory system understandable. With succinct, evocative and unfailingly interesting answers, Faith Hickman Brynie answers such questions as "Does my heart get tired?"; "Is heartburn really heart burn?"; "What is blood poisoning?"; and more. The questions have been culled from thousands asked by teens.

As in previous books in this critically acclaimed series, Brynie polled hundreds of high school students across the country to find out what they wanted to know most about blood and circulation. Using an accessible question-and-answer format, Brynie helps readers discover and learn facts about the blood and circulation in human body. Brynie appealing and clear writing style makes learning about blood and circulation as easy as donating blood to the blood bank.

Uses a question-and-answer format to present information about physical, medical, and social issues surrounding human reproduction, including birth control, pregnancy, and childbirth.

As in previous books in this critically acclaimed series, Brynie polled hundreds of high school students across the country to find out what they wanted to know most about sex and sexuality. Using an accessible question-and-answer format, Brynie helps readers discover and learn facts about the sex and sexuality. Brynie appealing and clear writing style makes learning about sex and sexuality for students easy and understandable.

Questions and answers explain the human immune system and how it works, as well as allergies and vaccines.

What kind of art existed in & prehistoric times?Which is the world's oldest city? How does the Moon shine? Why does water dry out in puddles? What is sleepwalking? All these and many more strange questions answered in this specially illustrated book! The perfect book for eager young minds;helping them discover the fascinating world we live in.
