This part chronicles the murders of 112 women in Santa Teresa from 1993 to 1997 and the lives they lived. It also depicts the police force in their mostly fruitless attempts to solve the crimes, as well as giving clinical descriptions of the circumstances and probable causes of the various homicides. 2666, Part 4: The Part About The Crimes by Roberto Bolaño

There is a passage in The Part About Fate (page 266-267) in which a white-haired man describes how many deaths happened even centuries ago, but went unreported, as these were people who were not part of society ("the ones killed in the commune weren't part of society, the dark-skinned people who died on the ship weren't part of society, whereas the woman killed in a French provincial capital and the murderer on horseback in Virginia were").

2666: The Part About the Crimes (Book 4) For better and worse, the fourth section of Roberto Bolaño's 2666 was, almost universally, not what I expected. There were three things that did line up with my expectations: The Part About the Crimes was thought-provoking, well-written, and dealt, as the title implies, with the hundreds of sexual homicides committed against women in Mexican border-town Santa Teresa (Bolaño's fictionalized version of Ciudad Juarez).

Roberto Bolaño - "2666," "Part 4 - The Part About The Crimes". "The truth is, none of it made any sense" (p.595) The fourth and longest part of "2666" details the deaths (or rather, the discovery of the corpses) of the 106 women murdered in Santa Teresa and the surrounding area in the five year period between January 1993 and December 1997.

Bolaño's 2666: The Part about the Crimes. 2666 is a postmodernist epic written by the late Chilean author Roberto Bolaño. Written in the years leading up to his death, the novel was published in 2004, released posthumously a year after Bolaño's death, and for a relatively modern book it carries the weight and renown that Bolaño's legacy demands. Challenging the very definition of a novel and story-telling, 2666 is sprawling, vast, intimidating, overwhelming, and as such, it would ...

2666: The Part About Fate. If the transition from the first part of 2666 to the second raised an eyebrow in abandoning the chief figures of the first part, but lowered it in concentrating the geographical and topical focus more tightly to its ostensible core subject – the murders of hundreds of women in northern Mexico - then the third part initially seems, even given the many branching diversions of 2666, a surprising departure from the direction in which the novel has been heading.

Roberto Bolaño's 2666 also returns to the point of departure, to "the scene of the crime," as one character puts it. In many ways, The Part About Archimboldi deposits the reader back in the world of The Part About the Critics: a European world, insular, preoccupied with the struggle between nationalism and cosmopolitanism, and preoccupied with literature - preoccupied, in particular, with Benno von Archimboldi, the elusive novelist pursued by the critics of the first part, and here followed ...

Part 3: The Part About Fate is where 2666 fell into place for me during my first read. At the end of the section Fate is fleeing from St. Theresa with Rosa, whose father has asked Fate to take her to the U.S. and then put her on a plane to Spain. Part four, and longest of the five, THE PART ABOUT THE CRIMES, is brutal and relentless. For nearly 300 pages, Bolaño dispassionately catalogs dozens upon dozens of rapes and murders of women in Santa Teresa through the eyes of local law enforcement who believe they have one or more serial killers in their midst.
