Dd dropped 2nd nap around 14m. She had it earlier though - 9ish for 45 mins. It took a little while for her to sleep longer than her 1.5h pm nap for a while and we resorted to 2 naps/1 nap alternate days as she is horrible without enough sleep. If she had 1 shorter nap she would be falling asleep in her dinner!

I know eventually she will stop wanting a morning nap but I just find it easier to let her sleep when she wants to if she is having a tired day.

That's why when we had 3/4 days of nap 12-2, then bed 6.45-7.30ish I thought we were onto a winner. But then after those days we start getting 6am and then today the 5am wake up. I can only assume tis is down to OT but I really thought with a 2 hour nap and 12.5 hrs of night sleep she'd be ok. Doing 2 naps today- 9.45am-11am and put her down at 2pm.
