Powder is ideal to highlight body lines. 3M™ Dry Guide Coat is used to identify surface imperfections such as pinholes in body filler and deep scratches in primer. Unlike liquid and aerosol guide coats, Dry Guide Coat requires no masking before use, and there is no dry time after application. The dry formula contains no intentionally added solvents and doesn't clog sandpaper while delivering easier cleanup.

Contains no solvents Used in the 3M Dry Primer System. When sanding polyester filler, it ensures the filler is flat (no ripples) and that the body styling lines and contours are straight and correct. It also ensures the total primed area is sanded prior to top coating.

3M Dry Guide Coat Kit 05861: Advance Auto Parts

Will NEVER go back to 3M guide coat. This stuff is the shiz!!! Double the amount of powder, way blacker, half the cost. Also, if using for wet sanding it doesn't leave a film that makes it hard to sand like the 3M powder does. Yes, it makes a mess when wet sanding but makes life so much easier and mops up easily.
