From man's initial wanderings out of Africa, through the emergence of settled agriculture, the spread of language and religion, the rise of great civilizations, the Industrial Revolution and right up to the technological advancements of the 21st century, Homo sapiens has proved both remarkable adaptable and innovative. Aygdon narrates 150,000 years worth of key events, some familiar, some new, from the domestication of sheep to the invention of paper money, the re-peopling of the Americas to ...

In Sapiens, Dr Yuval Noah Harari spans the whole of human history, from the very first humans to walk the earth to the radical – and sometimes devastating – breakthroughs of the Cognitive, Agricultural and Scientific Revolutions. Drawing on insights from biology, anthropology, palaeontology and economics, he explores how the currents of history have shaped our human societies, the animals and plants around us, and even our personalities.

Sapiens: A Brief History of Humankind is a book by Yuval Noah Harari, first published in Hebrew in Israel in 2011 based on a series of lectures Harari taught at The Hebrew University of Jerusalem, and in English in 2014. The book surveys the history of humankind from the evolution of archaic human species in the Stone Age up to the twenty-first century, focusing on Homo sapiens. The account is situated within a framework that intersects the natural sciences with the social sciences. The book has

The purpose of this review is to inform anyone interested in this book that the other book written by Aydon, The Story of Man (ISBN 9780786720859), is the same as this book, A Brief History of Mankind. It seems that The Story of Man is the original hardback edition, and A Brief History of Mankind is the paperback edition with a changed title.
