The Little Book of Everything is by one of my favourite Indian authors "Sir Ruskin Bond " . Ruskin Bond's works always portray the serenity and beauty of nature which makes me feel more connected to his works. _____ It is a very beautiful book to have in your collection. Filled with nice quotes which will make you feel that subtle warmth in your heart which spreads ...

Used worldwide as both an anesthetic and a recreational psychedelic drug, ketamine has recently attracted the attention of medical researchers, law enforcement officers, and people interested in exploring alternative spirituality and consciousness. The book describes the drug's history, its use in the underground party scene, and its sought-after effects as well as its dangers and how to reduce them.

In *Drugs and Bugs* you will read about everything that is exciting about medicines - from crocodile poo and hippo fat in ancient Egypt, to today's injections and tablets. You will find out how vaccines work, why antibiotics are useless against the common cold and how scientists go about inventing new medicines. You will also learn about viruses, bacteria, fungi and parasites, how they attack the body and how we defend ourselves - both with and without medicines. And lots more! *Drugs and Bugs* is written by Fredrik Brouneus, pharmacist and writer. The book is richly illustrated by Nina Erixon-Lindroth, illustrator and neuroscientist.

Recounts the addiction and recovery of the world-renowned solo artist and former lead singer and songwriter of Soul Coughing.

A resource for professionals to use with vulnerable teens includes a series of activities for children ages 13-19 aimed at educating them about various drugs and encouraging them to make the correct choices. Original.

Wacky but well-researched, unbiased and shameless, this informational book about drugs dares to take readers on a long, strange trivia trip. Following in the tradition of *The Ultimate Book of Useless Information*, *The Curious World of Drugs and Their Friends* is a wry potpourri of interesting information about every conceivable kind of drug. Readers can feed their heads with anecdotes, facts, lists, statistics, and illustrations, including:

- The test results of animals on LSD—cats lose their fear of dogs, and goats walk in geometric patterns
- Drugs found in nature, from magic mushrooms to St. John ' s wort to beaver secretions
- Celebrities who overdosed at age 27—Jimi Hendrix, Janis Joplin, Jim Morrison, Kurt Cobain, Brian Jones, and Jean Michel-Basquiat
- Imaginary drugs in literature and film, from spice the m é lange in *Dune* to Moloko plus in *A Clockwork Orange*
- Nicknames for a joint—from doobie to giggly stick to Mr. Boom Bizzle
- The global percentages of adults who have used cannabis—.004 percent in Singapore and 12.6 percent in the United States
- The uses of opium in ancient Rome—from treatments for insomnia and epilepsy to colic and deafness
- The most glamorous rehab clinics and their celebrity alumni
- Mini-biographies of the biggest drug kingpins around the world

An intelligent and personal look at recreational drug use that will forever change the terms of the debate about the use of recreational drugs.
