May 22, 2012. Malchiodi (2006) | citation needed| provides an example of what an art therapy session involves and how it is different from an art class. "In most art therapy sessions, the focus is on your inner experience—your feelings, perceptions, and imagination. While art therapy may involve learning skills or art techniques, the emphasis is generally first on developing and expressing images that come from inside the person, rather than those he or she sees in the outside world.
