While organizations claim to value creativity, they are often at a loss when attempting to conjure up novel ideas, particularly in a world where technology has made information readily available to everyone. As a result, leaders ask, "Where will the next big idea come from?" In response, they allocate significant resources for innovation; however the source of creative inspiration has remained a mystery. Science has shown that it's possible to create conditions under which the mind is more prepared to have insights, or "a-ha! moments." In this fascinating book, Andrew Razeghi examines the precursors to creative insight and offers clear-cut methods for making "Eureka moments" routine practice rather than lucky accidents. Combining the latest scientific research, interviews with

abundance of original sin. The young man frantically struggles to find acceptance and eventually receives a surprise calling. Driven to find meaning in life, he battles against a social anxiety disorder and eventually speaks to audiences of thousands. He is the founder of a first-of-its kind publication for clergy and a clergy conference that renowned theologian Walter Brueggemann calls "a major piece of work that will stand when the history of the U.S. church is written. It must be providential that you were led from your start to that great work." Experience the epic travels from hillbilly obscurity to encounters with fame and the sacred. Paths cross with Archbishop Desmond Tutu, civil rights activists, U.S. senators, and world-famous musicians.

'He was of no consequence - he was flung aside, like a bit of trash, the carcass of some animal. It was horrible, horrible!' Upton Sinclair's searing novel follows the fortunes of Jurgis Rudkus, a young Lithuanian who comes to America with his fiancée and family in search of a better life. What he finds in the stockyards of turn-of-the-century Chicago is a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in documentary detail by an author intent on social reform. So powerful was the book's effect that it led to changes to the food hygiene laws in the United States. Despite this success, the issues of immigrant exploitation and food adulteration addressed by the novel are still

canonical writers of every period. Volume One is an inclusive and geographically expansive examination of early American literature, applying a range of cultural and historical approaches and theoretical models to a dramatically expanded canon of texts. Volume Two covers American literature between 1820 and 1914, focusing on the development of print culture and the literary marketplace, the emergence of various literary movements, and the impact of social and historical events on writers and writings of the period. Spanning the 20th and early 21st centuries, Volume Three studies traditional areas of American literature as well as the literature from previously marginalized groups and contemporary writers often overlooked by scholars. This inclusive and comprehensive study of American literature: Examines the influences of race, ethnicity, gender, class, and disability on American literature Discusses
