indeed find a bubbler with a sign right outside City Hall.

A TASTE OF COLORED WATER | Kirkus Reviews
Water is a chemical compound with the chemical formula H₂O. A water molecule contains one oxygen and two hydrogen atoms that are connected by covalent bonds. Water is a liquid at standard ambient temperature and pressure, but it often co-exists on Earth with its solid state, ice, and gaseous state, steam (water vapor). Water covers 71% of the Earth's surface.[1]

A Taste of COLORED Water - Blogger

I was the taster. I tasted them blind, not knowing which was which. I had strong opinions. But first, some science. New York City is the nation's largest municipal water supplier, 90 percent of ...

Pizza is better made with New York water. Here's how we know.

What does colored water taste like? If it's red, might we suspect that it's cherry or strawberry? Purple? Grape. Yellow? Lemonade perhaps. Well, when Abbey Finch tells cousins Lulu and Jelly that there is a colored water fountain in the city, their imaginations run wild trying to figure out what colored water must look like and taste like.
