The fourth edition of Teaching Secondary Science has been fully updated and includes a wide range of new material. This invaluable resource offers a new collection of sample lesson plans and includes two new chapters covering effective e-learning and advice on supporting learners with English as a second language. It continues as a comprehensive guide for all aspects of science teaching, with a focus on understanding pupils' alternative frameworks of belief, the importance of developing or challenging them and the need to enable pupils to take ownership of scientific ideas. This new edition supports all aspects of teaching science in a stimulating environment, enabling pupils to understand their place in the world and look after it. Key features include: Illustrative and engaging lesson plans for use in the classroom Help for pupils to construct new scientific meanings M-level support materials Advice on teaching 'difficult ideas' in biology, chemistry, physics and earth sciences Education for sustainable development and understanding climate change Managing the science classroom and health and safety in the laboratory Support for talk for learning, and advice on numeracy in science New chapters on e-learning and supporting learners with English as a second language. Presenting an environmentally sustainable, global approach to science teaching, this book emphasises the need to build on or challenge children's existing ideas so they better understand the world in which they live. Essential reading for all students and practising science teachers, this invaluable book will support those undertaking secondary science PGCE, school-based routes into teaching and those studying at Masters level.

A step-by-step program that shows parents, simply and clearly, how to teach their child to read in just 20 minutes a day.

In Interactive Notebooks: Language Arts for first grade, students will complete hands-on activities about long vowels, sentence structure, nouns, adjectives, story elements, text features, and more. The Interactive Notebooks series spans kindergarten to grade 5. Each 96-page book contains a guide for teachers who are new to interactive note taking, lesson plans and reproducibles for creating notebook pages on a variety of topics, and generic reproducibles for creating even more notebook pages. The books focus on grade-specific math or language arts skills and are aligned to current state standards.

An accessible primer on phonics-based teaching filters out the obscure, political, and gimmicky practices of typical programs to provide parents with simple steps on teaching children how to read, providing a wealth of tools, instructional advice, and easy-to-follow guidelines. Original. 10,000 first printing.

An educational toolkit for teaching phonics, consisting of a book, posters and musical CD, all of which provides for multiple options and inputs for learning, including: visual-icons, auditory and kinesthetic motor skill manipulations, as well as a variety of dramatic and emotive cuing-systems designed to target the affective learning domain. This "backdoor-approach" to phonemic skill acquisition is based on current neural research on Learning & the Brain--specifically how our brains actually learn best!The Secret Stories® primary purpose is to equip beginning (or struggling, upper grade) readers and writers, as well as their instructors, with the tools necessary to easily and effectively crack the secret reading and writing codes that lie beyond the alphabet, and effectively out of reach for so many learners! It is not a phonics program! Rather, it simply provides the missing pieces learners need to solve the complex reading puzzle--one that some might never solve otherwise! The Secrets(tm) are sure to become one of the most valuable, well-used, and constantly relied-upon teaching tools in your instructional repertoire!

So you've decided to homeschool but don't know where to start? Don't worry, Homeschooling 101 offers you a step by step practical guide that will help you get started and continue on in your homeschooling journey. Erica will walk you through all of the aspects of getting started, choosing and gathering curriculum, creating effective lesson plans, scheduling your day, organizing your home, staying the course and more!
