John Norman has updated his best-selling book, a guide for the firefighter and fire officer who, having learned the basic mechanics of the trade, are looking for specific methods for handling specific situations. In this new fourth edition, readers will find a new chapter on lightweight construction, a new chapter on electrical fires and

emergencies, updates to many chapters including such topics as wind-driven fires, and many new illustrations.

In a world increasingly indifferent to Christian truth, followers of Christ need to be equipped to communicate with those who do not speak their language or accept their source of authority. In the Tactics Study Guide, apologist and radio host Gregory Koukl demonstrates how to get in the driver ' s seat in discussions about faith, keeping any conversation moving with thoughtful, artful tact. Readers will learn how to maneuver comfortably and graciously through potential minefields, stop challengers in their tracks, turn the tables, and—most importantly—get people thinking about Jesus with conversations that look more like diplomacy than D-Day. Drawing on extensive experience defending Christianity in the public square, Koukl demonstrates how to: Initiate conversations effortlessly Present the truth clearly, cleverly, and persuasively Graciously and effectively expose faulty thinking Skillfully manage the details of dialogue Maintain an engaging, disarming style even under attack Designed to be used alongside the Tactics Video Study, the Tactics Study Guide provides a game plan for communicating the compelling truth about Christianity with confidence and grace.

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

"A look at personal training that goes beyond the textbooks." - *Muscle & Fitness Now* in a revised, expanded, and upgraded edition, *Ignite the Fire* is the highly practical approach to personal training already relied on by thousands of trainers Worldwide. The bestselling *Foundations of Marketing* by David Jobber and John Fahy is back in a contemporary and engaging third edition. It offers comprehensive coverage of the essentials of marketing in a concise and student-friendly format, firmly rooting theory in real marketing practice. With its wealth of captivating examples, concise 12-chapter structure, and characteristic accessible style, it remains the ideal text for students on introductory marketing courses. What's new: * Coverage of the latest developments in marketing practice, such as experiential marketing, neuro marketing, multi-channel marketing and buzz marketing * Brand new end-of-chapter cases including YouTube, Innocent Drinks, Sony Playstation, Nike and Oasis clothing * New Ethical Debate boxes stimulate student discussions about socially responsible practice * New Technology Focus boxes examine the growing impact of digital technologies on marketing.

Ray Downey wrote the first edition of *The Rescue Company* in the early 1990s. Building on Downey's legacy, John Norman has written *Fire Department Special Operations* to take into consideration the earth-shattering events, funding increases, research advances, expanded capabilities, and changes in regulations and standards that have widened the knowledge gap since the publication of Chief Downey's book. *Fire Department Special Operations* is an excellent guide for agencies and individuals in establishing, staffing, operating, and maintaining heavy rescue units in the many forms they may take. It is also an ideal training resource for the officers and individuals assigned the duties that a rescue firefighter must accomplish.

A Companion to the Anthropology of Religion presents a collection of original, ethnographically – informed essays that explore the variety of beliefs, practices, and religious experiences in the contemporary world and asks how to think about religion as a subject of anthropological inquiry.
