Africa's Telecoms Sector may not be Immune from the Commercial Upheavals of Covid-19. 2 days ago 1 min read. Share with your network!

Africa's Telecoms Sector may not be Immune from the ...

Africa presents great opportunities in the telecom sector. The liberalisation of the sector, the extension of services by multinational conglomerates and the active competition currently in place in the sector have all contributed to the telecom revolution. Since the processes of liberalisation and privatisation have been taken into consideration by African countries such as Uganda, Tanzania, Nigeria, the Sudan, South Africa and Kenya, their telecommunication infrastructures have improved ...

Privatization. The African telecom sector is poised at a digital revolution. Since its liberalization in the 1980s, the involvement of multinational conglomerates has promoted a healthy competition which led to its flourishing. Tanzania, Uganda, Sudan, Nigeria, Kenya, and South Africa are just a few examples of African countries which have recognized the opportunities of the privatization and liberalization of the state-owned ICT enterprises.
