From the resumption of automobile production at the close of World War II through the 1950s, the American auto industry would see the births and deaths of several manufacturers, great technological advances, and an era of dramatic styling as a prospering nation asserted its growing mobility. Cars of this period are among the most iconic vehicles ever built in the United States: the 1949 Ford, the remarkable Studebaker designs of 1950 and 1953, the 1955–1957 Chevrolets, the “Forward Look” Chrysler products, the ill-fated Edsel and many others. This comprehensive reference book details every model from each of the major manufacturers (including independents such as Kaiser-Frazer and Crosley but excluding very low-volume marques such as Tucker) from model years 1946 through 1959. Year by year, it provides an overview of the industry and market, followed by an individual report on each company: its main news for the year (introductions or cancellations of models, new engines and transmissions, advertising themes, sales trends etc.); its production figures and market status; and its powertrain offerings, paint colors and major options. The company's models are then detailed individually with such information as body styles, prices, dimensions and weights, standard equipment and production figures. Nearly 1,000 photographs are included.

Provides information on the histories, performance, specifications, and accessories of more than sixty outstanding American automobiles

Acces PDF American Cars With Transmission

Covers Lincoln, Continental, Zephyr, Edsel and Mercury 1939-1959, a pictorial history, with the emphasis on close-up details. Lots of useful information. Over 200+ B&W photos, 125 pages. Soft cover. Great reference and restorers guide. Smart addition to your auto library.

Barracuda, Mustang, GTO, Ford Fairlane -- these cars typify the American muscle car, and their names conjure up the sights and sound of 1960s and 1970s America, before the gas crisis and concern for the environment led to the development of smaller, gas-saving automobiles. American Muscle Cars is the story of these eye-catching, heart-stopping cars.

Paperback: Those 80s Cars is dedicated to enthusiasts of the manufacturers of American owned and branded franchises. These often overlooked cars are now entering classic and collectible status. This is your resource guide of exterior and interior color views with hundreds of pages, over 2,400 images (front, back, profiles, interiors, dashes, seats and a few cut-a-ways), and quotes and stats from the brochures. Includes cars from 1980-1989 from these manufacturers: AMC & Eagle, Buick, Cadillac, Chevrolet & Geo, Chrysler & Imperial, Dodge, Ford, Lincoln, Mercury, Merkur, Oldsmobile, Plymouth and Pontiac.

A comprehensive history of the automobile in America. More than a century of coverage, including the latest models. Told in a lively picture-and-caption format. Thousands of images, including rare factory photos, period advertising, and styling proposals.

Many of the American-powered British makes offered for sale were often built with everything from trials and rallies to road racing in mind. This TWTD book covers British cars powered by American engines and American cars fitted with British power plants, all built from the 1930s to 1970s.

The 1930s might have been the greatest 10-year period in the history of the American automobile. Even in the face of a suffocating Depression, American cars continued to evolve with beautiful, streamlined designs that had never been seen before. General Motors began "face lifting" its vehicles with new styles for every model year. Hard-rubber rides were softened by balloon tires, impressive 16-cylinder engines began showing up under massive hoods and hydraulic brakes became the norm. The synchromesh transmission, independent suspension, heaters and radios made automotive journeys more comfortable than ever. It was truly a decade of advancement and achievement for U.S. car makers. In Just '30s, the publisher of Old Cars Weekly and OldCarsReport.com Price Guide celebrates this fabulous decade with a look back at the cars, and car companies, that gave us such great memories.
