correlation with the 3rd edition of Respiratory Care Anatomy and Physiology makes it easy to parallel workbook activities with content from the main text. A variety of learning activities include fill-in-the-blank, matching, and labeling exercises to help you assess your knowledge of text content. Open-ended critical thinking questions ask you to apply your understanding of text material with a written response. Case studies place key subject matter in a clinical context to help you connect theory with practice. Key concept questions are NBRC-style multiple choice questions that require recall, application, and analysis. ALL NEW! Content is divided into easy-to-follow sections that progress in difficulty from recall exercises to application exercises.
