Classification of Animal Kingdom. Animals are classified based on their characteristics. They are eminent from algae, plants, and fungus where rigid cell walls are absent. Some are also heterotrophic, in general, they digest their food within the internal chambers which again distinguish them from algae and plants. Another elite character of these species is that they are motile, except in ...

'Animal Kingdom' is an exceptionally atmospheric film with a superb pace. For some viewers, this may be too much of a slow burn – this isn't a film for the 'Fast & Furious' and 'Need For Speed' generation. 'Animal Kingdom' is an extremely suspenseful drama that slowly captivates the viewer and takes them on a relentless journey into the lives a dysfunctional family on the verge of imploding ...

The animal kingdom is vast group of millions of different kinds (species) of animals. Thousands more species are being discovered each year. Whatever their shape, size, or way of life, they all have some things in common. Their bodies are made up of many cells, and they have nerves and muscles to move and respond quickly to the world around them.
