Linguistic anthropology is a branch of anthropology that studies the role of language in the social lives of individuals and communities. Linguistic anthropology explores how language shapes communication. Language plays a huge role in social identity, group membership, and establishing cultural beliefs and ideologies.

### What Is Linguistic Anthropology? - ThoughtCo

Anthropological linguistics is the subfield of linguistics and anthropology, which deals with the place of language in its wider social and cultural context, and its role in making and maintaining cultural practices and societal structures. While many linguists believe that a true field of anthropological linguistics is nonexistent, preferring the term linguistic anthropology to cover this subfield, many others regard the two as interchangeable.

### Anthropological linguistics - Wikipedia

"Anthropological linguistics is that sub-field of linguistics which is concerned with the place of language in its wide social and cultural context, its role in forging and sustaining cultural practice and social structures...[it] views language through the prism of the core anthropological concept, culture, and, as such, seeks to uncover the meaning behind the use, misuse or non-use of languages, its different forms, register and styles..." (Foley 1997: 3)

### Anthropological Linguistics vs Sociolinguistics vs ...

Linguistic Anthropology. A. Duranti, in International Encyclopedia of the Social & Behavioral Sciences, 2001. Linguistic anthropology is dedicated to the study of language as a cultural resource and speaking as a cultural practice. This entry reviews the history of the discipline within the tradition of four-field anthropology established in the USA by Franz Boas at the beginning of the twentieth century, and highlights its major figures and their theoretical contributions to a science of ...
