Migration and Literature offers a thought-provoking analysis of the thematic and formal role of migration in four contemporary and canonized novelists.

How strong and how significant is the interaction between migrants and homelands in the late 20th century? Have the processes of globalization and transnational interaction produced new forms of nationalism or at least altered the old ones? By using Croatians and Slovenians in Australia as examples this book examines the extent to which migrants are influenced by historical and contemporary processes of migration mediated through political and cultural symbolism. What are the factors which influence the existence, nature and intensity of ethno-nationalism in the migrant context? The study analyses both the existence and transmission of ethno-nationalism between migrant settings and homelands and specifically deals with the transmission of ethno-nationalism sentiments across migrant generations. To understand the effects and consequences of long-distance nationalism fully the book proceeds from an analysis of nationalism's public manifestations to an analysis of the relatively private domain of diasporic ethno-communal existence.

The first novel to appear in English by one of the most talked-about and critically acclaimed writers of new Mexican fiction. From a psychoanalyst's couch, the narrator looks back on her bizarre childhood—in which she was born with an abnormality in her eye into a family intent on fixing it. In a world without the time and space for innocence, the narrator intimately recalls her younger self—a fierce and discerning girl open to life's pleasures and keen to its ruthless cycle of tragedy. With raw language and a brilliant sense of humor, both delicate and unafraid, Nettel strings together hard-won, unwieldy memories—taking us from Mexico City to Aix-en-Provence, France, then back home again—to create a portrait of the artist as a young girl. In these pages, Nettel's art of storytelling transforms experience into inspiration and a new startling perception of reality. "Nettel's eye…gives rise to a tension, subtle but persistent, that immerses us in an uncomfortable reality, disquieting, even disturbing—a gaze that illuminates her prose like an alien sun shining down on our world." —Valeria Luiselli, author of Sidewalks and Faces in the Crowd "It has been a long time since I've found in the literature of my generation a world as personal and untransferable as that of Guadalupe Nettel." —Juan Gabriel Vásquez, author of The Sound of Things Falling "Nettel reveals the subliminal beauty within beings…and painstakingly examines the intimacies of her soul." —Magazine Littéraire "Guadalupe Nettel's storytelling power is majestic."—Typographical Era In Praise of Natural Histories "Five flawless stories..." —The New York Times "Nettel's stories are as atmospheric and emotionally battering as Checkhov's."—Asymptote

Through a comparative analysis of the novels of Roberto Bolaño and the fictional work of César Aira, Mario Bellatin, Diamela Eltit, Chico Buarque, Alberto Fuguet, and Fernando Vallejo, among other leading authors, Héctor Hoyos defines and explores new trends in how we read and write in a globalized era. Calling attention to fresh innovations in form, voice, perspective, and representation, he also affirms the lead role of Latin American authors in reshaping world literature. Focusing on post-1989 Latin American novels and their representation of globalization, Hoyos considers the narrative techniques and aesthetic choices Latin American authors make to assimilate the conflicting forces at work in our increasingly interconnected world. Challenging the assumption that globalization leads to cultural homogenization, he identifies the rich textual strategies that estrange and re-mediate power relations both within literary canons and across global cultural hegemonies. Hoyos shines a light on the unique, avant-garde phenomena that animate these works, such as modeling literary circuits after the dynamics of the art world, imagining counterfactual "Nazi" histories, exposing the limits of escapist narratives, and formulating textual forms that resist worldwide literary consumerism. These experiments help reconfigure received ideas about global culture and advance new, creative articulations of world consciousness.

This is a tale that might be told around a campfire, night after night in the midst of a military campaign. The kinetic and garrulous Pancho Villa talking on and on about battles and men; bursting out with hearty, masculine laughter; weeping unashamed for fallen comrades; casually mentioning his hotheadedness—"one of my violent outbursts"—which sent one, two, or a dozen men before the firing squad; recounting amours; and always, always protesting dedication to the Revolutionary cause and the interests of "the people." Villa saw himself as the champion, eventually almost the sole champion, of the Mexican people. He fought for them, he said, and opponents who called him bandit and murderer were hypocrites. This is his story, his account of how it all began when as a peasant boy of sixteen he shot a rich landowner threatening the honor of his sister. This lone, starved refugee hiding out in the mountains became the scourge of the Mexican Revolution, the leader of thousands of men, and the hero of the masses of the poor. Great battles of the Revolution are described, sometimes as broad sweeps of strategy, sometimes as they developed half hour by half hour. Long, dusty horseback forays and cold nights spent pinned down under enemy fire on a mountainside are made vivid and gripping. The assault on Ciudad Juárez in 1911, the battles of Tierra Blanca, of Torreón, of Zacatecas, of Celaya, all are here, told with a feeling of great immediacy. This volume ends as Villa and Obregón prepare to engage each other in the war between victorious generals into which the Revolution degenerated before it finally ended. Martín Luis Guzmán, eminent historian of Mexico, knew and traveled with Pancho Villa at various times during the Revolution. General Villa offered young Martín Luis a position as his secretary, but he declined. When many years later some of Villa's private papers, records, and what was apparently the beginning of an autobiography came into Guzmán's hands, he was ideally suited to blend all these into an authentic account of the Revolution as Pancho Villa saw it, and of the General's life as known only to Villa himself. The Memoirs were first published in Mexico in 1951, where they were extremely popular; this volume was the first English publication. Virginia H. Taylor, translator in the Spanish Archives of the State of Texas Land Office, has accurately captured in English the flavor of the narrative.

One of the late Carlos Fuentes's final projects, this compendium of his criticism traces the evolution of the Latin American novel from the discovery of America to the present day. Combining historical perspective with personal and often opinionated interpretation, Fuentes gives us a tour from Machado de Assis to Borges and beyond. A landmark analysis, as well as a scintillating and often wry commentary on a great author's peers and influences, this book is as much a contribution to Latin American literature as it is a chronicle of that literature's greatest achievements.

A lively and accessible introduction to themes and debates in archaeological theory for students of all levels Archaeological Theory is a relatable, accessible, reader-friendly first step into the world of theory for archaeology students. Recognizing that many students shy away from the study of theory for fear that the material is too difficult or obscure, Archaeological Theory maintains that any student can develop an understanding of theory and that a knowledge of theory will lead to better practice. As one of the leading texts for introductory courses in archaeology and archaeological theory, it has provided many students with the essential foundation for a complete education in the discipline. With a focus on clarifying the history and development of archaeological theory, this valuable text serves as a roadmap to the different schools of theory in archaeology, clarifying the foundations of these schools of thought, the relationships between them, and the ideas that distinguish each from the other. Students will also learn about the relationship between archaeology and cultural and political developments, the origins of New and 'post-processual' archaeology, and current issues shaping the field. Written in a clear and informal style and incorporating examples, cartoons, and dialogues, this text provides an ideal introduction for students at all levels. The revised third edition has been updated with new and revised chapters and an expanded glossary and bibliography, as well as new readings to guide further study. Engages readers with informal and easy-to-understand prose, as well as examples, cartoons, and informal dialogues Prepares students to understand complex topics and current and perennial issues in the field such as epistemology, agency, and materiality in the context of archaeological practice Discusses current developments in associated disciplines New and revised chapters on the material turn, politics and other issues, and an expanded glossary and bibliography with updated reading suggestions Offers expanded coverage of materiality, cultural-historical archaeology, evolutionary theory, and the work of scholars of diverse backgrounds and specializations Engaging and illuminating, Archaeological Theory is an indispensable resource for undergraduate and graduate students in archaeology and related disciplines.

Describes geography and natural history of the peninsula, gives brief history of Mayan life, discusses Spanish conquest, and provides a long summary of Maya civilization. 4 maps, and over 120 illustrations.

Although politicians promise innovation and change when they run for office, once elected they face inherited commitments to programs initiated by their predecessors, legacies that severely limit their freedom of choice. In this book, the authors examine the ways in which decisions made by past generations of administrators control policy-making in the present.
