an early school of thought in psychology that focused on how our mental and behavioral processes work - how they enable us to adapt, survive, and flourish. Behaviorism the view that psychology (1) should be an objective science that (2) studies behavior without reference to mental processes because thoughts and feeling cannot be observed.

AP Psychology Course and Exam Description This is the core document for the course. It clearly lays out the course content and describes the exam and AP Program in general.

Thus begins market-leading author David Myers' discussion of developmental psychology in Unit 9 of his new Myers' Psychology for AP® Second Edition. With an undeniable gift for writing, Dr. Myers will lead your students on a guided tour of psychological science and poignant personal stories. Dr. Myers teaches, illuminates, and inspires. Four years ago, we published this ground-breaking text which is correlated directly to the AP® course. Today, we build on that innovation and proudly introduce the 2nd AP® Edition. Whether you are new to AP® psychology or have many years under your belt, this uniquely AP® book program can help you achieve more.

NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • A deep and compassionate novel about a young man who returns to 1940s Cajun country to visit a black youth on death row for a crime he didn't commit. Together they come to understand the heroism of resisting. A “majestic, moving novel ... an instant classic, a book that will be read, discussed and taught beyond the rest of our lives” (Chicago Tribune), from the critically acclaimed author of A Gathering of Old Men and The Autobiography of Miss Jane Pittman.

Living in a "perfect" world without social ills, a boy approaches the time when he will receive a life assignment from the Elders, but his selection leads him to a mysterious man known as the Giver, who reveals the dark secrets behind the utopian facade.

#1 NEW YORK TIMES BESTSELLER • NEWBERY MEDAL WINNER • NATIONAL BOOK AWARD WINNER Dig deep in this award-winning, modern classic that will remind readers that adventure is right around the corner--or just under your feet! Stanley Yelnats is under a curse. A curse that began with his no-good-dirty-rotten-pig-stealing-great-great-grandfather and has since followed generations of Yelnatses. Now Stanley has been unjustly sent to a boys’ detention center, Camp Green Lake, where the boys build character by spending all day, every day digging holes exactly five feet wide and five feet deep. There is no lake at Camp Green Lake. But there are an awful lot of holes. It doesn’t take long for Stanley to realize there’s more than character improvement going on at Camp Green Lake. The boys are digging holes because the warden is looking for something. But what could be buried under a dried-up lake? Stanley tries to dig up the truth in this inventive and darkly humorous tale of crime and punishment--and redemption. "A smart jigsaw puzzle of a novel." –New York Times *Includes a double bonus: an excerpt from Small Steps, the follow-up to Holes, as well as an excerpt from the New York Times bestseller Fuzzy Mud.

Part of the Legend Classics seriesAs Gregor Samsa awoke one morning from uneasy dreams he found himself transformed in his bed into a gigantic insect.The Metamorphosis - the masterpiece of Franz Kafka - was first published in 1915 and is one of the seminal works of fiction of the twentieth century. The novel is cited as a key influence for many of today’s leading authors; as Auden wrote: "Kafka is important to us because his predicament is the predicament of modern man".Traveling salesman, Gregor Samsa, wakes to find himself transformed into a large, monstrous insect-like creature. The cause of Gregor's transformation is never revealed, and as he attempts to adjust to his new condition he becomes a burden to his parents and sister, who are repelled by the horrible, verminous creature Gregor has become.A harrowing, yet strangely comic, meditation on human feelings of inadequacy, guilt, and isolation, The Metamorphosishas taken its place as one of the most widely read and influential works of twentieth-century fiction.The Legend Classics series:Around the World in Eighty DaysThe Adventures of Huckleberry FinnThe Importance of Being EarnestAlice's Adventures in WonderlandThe MetamorphosisThe Railway ChildrenThe Hound of the BaskervillesFrankensteinWuthering HeightsThree Men in a BoatThe Time MachineLittle WomenAnne of Green GablesThe Jungle BookThe Yellow Wallpaper and Other StoriesDraculaA Study in ScarletLeaves of GrassThe Secret GardenThe War of the WorldsA Christmas CarolStrange Case of Dr Jekyll and Mr HydeHeart of DarknessThe Scarlet LetterThis Side of ParadiseOliver TwistThe Picture of Dorian GrayTreasure IslandThe Turn of the ScrewThe Adventures of Tom SawyerEmmaThe TrialA Selection of Short Stories by Edgar Allen PoeGrimm Fairy Tales

"Human sensory and perceptual experience is emphasized, and neuroscientific underpinnings of experience introduced. Chapters are written by experts in each of the sensory systems and integrate current findings in active areas of research. The text provides comprehensive treatment of higher perceptual functions (attention, music, language). Sensory systems including vision, audition, spatial orientation, the vestibular system, taste, and olfaction"--

Silas Marner is the third novel by George Eliot, published in 1861. An outwardly simple tale of a linen weaver, it is notable for its strong realism and its sophisticated treatment of a variety of issues ranging fromReligionto industrialisation to community.
