The science of happiness has always been inextricably linked to eugenics. Modern positive psychology is no different.

“Never Look on the Dark Side”: The Science of Positivity from Early Eugenics to Today

Watson, the founder of behaviorism, and Stanford’s Louis Terman, developer of IQ testing—was dedicated to ensuring the happiness of America by addressing “the menace of race deterioration or the ...

Nancy Burke

Genetics (from Ancient Greek γενετικός genetikos, "genitive" and that from γένεσις genesis, "origin"), a discipline of biology, is the science of genes, heredity, and variation in ...

Human Molecular Genetics

These are very exciting papers that represent a big step forward in both ancient and environmental DNA,” says Neil Gemmell, a geneticist at the University of Otago. Mads Reinholdt Jensen, an ...

DNA from dirt can offer new view of ancient life

Although it was clear that these insights applied to humans as much as to fruit flies, it took most of the century to turn these concepts into practical tools for discovering genes contributing to ...

Genetic Mapping in Human Disease

The human microbiota is a ... is a very difficult question to answer. By focusing on mechanistic and quantitative questions about the microbiome's contributions to host metabolism, I leverage my ...

Quantifying host-microbiota interactions

Thermo Fisher Scientific Inc. TMO recently announced the receipt of the Federal Bureau of Investigation (FBI) approval for the company's Applied Biosystems RapidHIT ID DNA Booking System for use by ...

Thermo Fisher's (TMO) Rapid DNA Solution Gets FBI Approval

Alexis Conneau’s work has helped Facebook and Google build artificial intelligence systems that can understand dozens of languages with startling accuracy. But researchers like him also stand at the ...

Meet the scientist teaching AI to police human speech

ANSWER: No one knows ... How much of health and longevity is genetic, how much is lifestyle, and how much is environmental? It's the same question asked about human intelligence.

ASK YOUR SCIENCE TEACHER

GM proponents say the technology leads to better crop yields and may solve food shortages and reduce pests. Opponents say GM is a threat to the environment and humans. So where does the truth lie?

From this week, every mainland Australian state will allow genetically modified crops. Here's why that's nothing to fear

This is the first successful in-human gene editing with Crispr that we know of, and it seems to work really well. Is this a big deal? The answer is an emphatic yes ... Why might it work better than ...

Crispr Gene-Editing Breakthrough Is a Big Deal. How Big?

But human evolution is a beastly slow affair. Evolution lives in geology, we die in biology. Which is why we cannot wait for evolution to find us an answer ... of being making genetic mistakes ...

Defeated by Randomness?

The U.S. Federal Bureau of Investigation (FBI) has approved Thermo Fisher Scientific's Applied Biosystems RapidHIT ID DNA Booking System ...

FBI Approves Thermo Fisher Scientific's Rapid DNA Solution for use in Law Enforcement Booking Stations

Among them are learning about the influence of heredity on human behaviour, the possibility of preventing genetic diseases ... but only if it is correctly applied. As reported in this newspaper ...

DNA and responsibility

When it's applied to human beings, critics warn of the inaccuracies ... company AgSense (owned by Valmont Industries), JSR Genetics Ltd. (a pig breeding company), and Garth Pig Practice (a ...

How stressed out are factory-farmed animals? AI might have the answer.

Exscientia’s AI platform has now designed three drugs that are in Phase 1 human clinical ... where classical genetics-driven precision medicine does not give precise answers.

Exscientia Acquires Personalised Medicine AI Pioneer Allcyte
