If you wish for peace, prepare for war. -Royal Navy Motto Seventy years ago, the interstellar supercarrier Ark Royal was the pride of the Royal Navy. But now, her weapons are outdated and her solid-state armour nothing more than a burden on her colossal hull. She floats in permanent orbit near Earth, a dumping ground for the officers and crew the Royal Navy wishes to keep out of the public eye. But when a deadly alien threat appears, the modern starships built by humanity are no match for the powerful alien weapons. Ark Royal and her mismatched crew must go on the offensive, buying time with their lives And yet, with a drunkard for a Captain, an over-ambitious first officer and a crew composed of reservists and the dregs of the service, do they have even the faintest hope of surviving And returning to an Earth which may no longer be there?

HMS Lion and HMS Unicorn have made it home from their first mission against the alien virus, opening the way for humanity to take the offensive. Now, a major fleet is readying itself to depart into enemy space, intent on smashing the virus's ability to wage war and destroy the threat once and for all. And Captains Hammond and Campbell will take the lead. But humanity itself is buckling under the strain of endless war. The stresses of fighting are tearing the fleet apart. And a very personal betrayal threatens to plunge the captains and their crews into a bitter feud, deep in alien territory. The stakes could not be higher And the risk of total defeat has never been so great.

But there's still a war on. And Vanguard must return to the front lines. Assigned to a task force heading to assist humanity's alien allies, Vanguard and her crew find themselves caught in a deadly alien trap. Can they survive to turn the tables on their enigmatic foe Or will their next encounter with the new enemies be their last?

Emily is a teenage girl pulled from our world into a world of magic and mystery by a necromancer who intends to sacrifice her to the dark gods. Rescued in the nick of time by an enigmatic sorcerer, she discovers that she possesses magical powers and must go to Whitehall School to learn how to master them. For the post-singularity Confederation, manipulating the quantum foam – the ability to alter the base code of the universe itself and achieve transcendence – is the holy grail of science. But it seems an impossible dream until their scouts encounter Darius, a lost colony world whose inhabitants have apparently discarded the technology that brought them to the planet in order

to adopt a virtually feudal culture. On Darius, the ruling elite exhibits abilities that defy the accepted laws of physics. They can manipulate the quantum foam! Desperate to understand what is happening on Darius, the Confederation dispatches a stealth team to infiltrate the planet's society and discover the truth behind their strange abilities. But they will soon realise that the people on Darius are not all the simple folk that they seem – and they are sitting on a secret that threatens the entire universe ...

It's 1830, in an alternate Britain where the 'scientific' principles of magic were discovered sixty years previously, allowing the British to win the American War of Independence. Although Britain is now supreme among the Great Powers, the gulf between rich and poor in the Empire has widened and unrest is growing every day. Master Thomas, the King's Royal Sorcerer, is ageing and must find a successor to lead the Royal Sorcerers Corps. Most magicians can possess only one of the panoply of known magical powers, but Thomas needs to find a new Master of all the powers. There is only one candidate, one person who has displayed such a talent from an early age, but has been neither trained nor officially acknowledged. A perfect candidate to be Master Thomas' apprentice, in all ways but one: the Royal College of Sorcerers has never admitted a girl before. But even before Lady Gwendolyn Crichton can begin her training, London is plunged into chaos by a campaign of terrorist attacks coordinated by Jack, a powerful and rebellious magician. The Royal Sorceress will certainly appeal to all fans of steampunk, alternate history, and fantasy. As well as the fun of the 'what-ifs' delivered by the rewriting of our past, it delights with an Empire empowered by magic - all the better for being one we can recognise. The scheming and intrigue of Jack and his rebels,

the roof-top chases and the thrilling battles of magic are played out against the dark and unforgiving backdrop of life in the sordid slums and dangerous factories of London. Many of the rebels are drawn from a seedy and grimy underworld, while their Establishment targets prey on the weak and defenceless. The price for destroying the social imbalance and sexual inequality that underpin society may be more than anyone can imagine.

Ark Royal – the Royal Navy's outdated space carrier – has won a smashing victory against the enigmatic aliens, capturing one of their starships and returning to Earth. Now, Admiral Theodore Smith and his crew are assigned to command a fleet charged with making a deep-penetration raid into alien territory, a fleet made up of carriers from four different nations. But with a crewman who isn't what he seems, untested pilots and international friction – and a new and dangerous alien plan - can Ted and his crew survive their mission ... or will they die, alone and unremarked, hundreds of light years from home?

The conclusion to the third Ark Royal trilogy! The Second Interstellar War - pitting humans and their Tadpole allies against an enigmatic alien empire - appears to have stalemated. Neither side can push through to the other's core systems without risking substantial losses, neither side can gain a decisive advantage. But when a brilliant human scientist invents a way to jump across the stars without a gravity tramline, an opportunity arises to strike the enemy in their undefended rear. It is an opportunity that cannot be allowed to pass. Now, HMS Vanguard and her crew - and the largest fleet ever assembled by the nations of Earth - heads out on a do-or-die mission to challenge their enemies to one final battle And if they lose, they will never

see home again.

"Peace is not freedom. Peace is merely the absence of war." The First Interstellar War is over, but the Royal Navy still has plenty of work to do. As Earth struggles to recover from the bombardment, Captain John Naiser is placed in command of HMS Warspite - an experimental heavy cruiser - and ordered to escort a squadron of colony ships to a star system of immense strategic importance. But as the crew struggle to survive hundreds of light years from Earth, they find themselves dealing with the legacy of the war ... and a threat which may sow the seeds of renewed conflict, or a deadly civil war that will rip the human sphere apart.

In 1941, Adolf Hitler didn't declare war on the United States. Now, in 1985, the Third Reich stretching from the coast of France to the icy wastes of Eastern Russia, appears supremely powerful. With a powerful force of nuclear warheads and the finest military machine on Earth, there is no hope for freedom for the billions who groan under its rule. Adolf Hitler's mad dreams have come to pass. And yet, all is not well in the Reich. The cold war with the United States and the North Atlantic Alliance is destroying the Reich's economy, while a savage insurgency in South Africa - a war the Reich cannot win and dares not lose - is sapping its military strength. And, while the Reich Council struggles to find a way to save the Reich from its own weaknesses, a young German girl makes a discovery that will shake the Reich to its core. But the Reich Council will not go quietly into the night ...
