Climb inside these stunning muscle car drop-tops, straight from the classic era of American high-performance cars! Today's rarest, priciest, and most highly sought-after muscle cars are also the least practical. These are the striking convertibles of the 1960s and 1970s that were optioned out for drag racing. Wide-Open Muscle showcases these rare cars and proves that sometimes it pays to throw practicality out the window in order to make something purely cool and fun to drive. At the peak of drag racing popularity, it was common knowledge that racers needed the lightest, most rigid-framed cars

available. Convertibles represent the exact opposite of that description, so it's amazing that these drop tops ever emerged amid the circle of full-throttle dragsters. While typical convertible drivers cruised around listening to the latest Lovin' Spoonful release in the eight-track tape deck, these muscle-car convertibles were equipped for rock 'n' roll speed. These topless muscle cars are so rare because few people had the dedication (or money) to buy a vehicle this impractical. They're valuable because they represent the absolute extreme of the entire muscle-car genre. All the cars in Wide-Open Muscle are shot in similar fashion, studio-style with a black background using a process known as light painting. It is the ultimate portrayal of the ultimate muscle cars.

Enigmatic American Don Nichols, D-Day paratrooper, Army counter-intelligence officer and controversial entrepreneur, went on to create a racing marque that seems as cloaked as the man himself. Shadow was the only US-based team to win a Can-Am championship, and one of only three to score a victory in Formula 1. Yet history lavishly celebrates his nominal rivals Dan Gurney and Roger Penske, while Nichols has long remained, yes, a shadowy figure -- despite staying the difficult international course far longer, for 11 racing seasons, 1970 to 1980. But at last Pete Lyons, who was there in the day, lifts the veil from this secretive man and the innovative, extraordinary, magnificent racing cars and world-class team he created.
