For the purpose of this post, the term electronic workpapers refers to any program that auditors can use to compile and archive audit documentation. The core functionality is the ability to upload your work directly into the program, where you can then organize it, record review and approval with electronic signatures and date stamps, back up your work and lock down the finished product.

*audit.myworkpapers.co.uk*

Audit working papers are used to document the information gathered during an audit. They provide evidence that sufficient information was obtained by an auditor to support his or her opinion regarding the underlying financial statements. Working papers also provide evidence that an audit was properly planned and supervised.
