This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Android How to Program, Second Edition provides a clear and entertaining App-driven introduction to Android 4.3 and 4.4 development for both introductory- and intermediate-level programming courses. It also serves as a great reference and tutorial to learn Android programming. The Deitels' App-driven Approach is simply the best way to master Android programming! The Deitels teach Android programming through seven complete, working Android Apps in the print book and more online. Each chapter presents new concepts through a single App. The authors first provide an introduction to the app, an app test-drive showing one or more sample executions , and a technologies overview . Next, the authors proceed with a detailed code walkthrough of the app ' s source code in which they discuss the programming concepts and demonstrate the functionality of the Android APIs used in the app. The book also has an extensive introduction to programming using the Java language, making this book appropriate for Java courses that want to add an App-programming flavor. Teaching and Learning Experience This program will provide a better teaching and learning experience—for you and your students. Add an App Component to your Java Course: The appendices provide a condensed, friendly introduction to Java and the object-oriented programming techniques students will need to develop Android apps. Motivate Students with an App-driven Approach to Android 4.3 and 4.4 Development: Concepts are presented in the context of 7 complete working Android Apps, using the latest mobile computing technologies. Enhance Learning with Outstanding Pedagogical Features: The Deitels present hundreds of Android short-answer questions and app-development exercises complete with syntax coloring, code walkthroughs and sample outputs.

A God chaser is a person whose passion for God’s presence presses him to chase the impossible in hopes that the uncatchable might catch him. A child chases a loving parent until, suddenly, the strong arms of the father enfold the chaser. The pursuer becomes the captive; the pursued the captor. Paul put it this way: "I chase after that I may catch that which apprehended me" (Phil. 3:12). Job was a God chaser. He said, "Oh that I knew where I might find Him!" David was one; he said, "My soul followeth hard after Thee." Paul was one too: "That I may know Him..." The passionate paths of God chasers can be traced across the pages of history from Moses the stutterer, David the singer, and Paul the itinerant preacher, to contemporaries like A.W. Tozer, Leonard Ravenhill, and countless others who share one common bond: an insatiable hunger to know their Lord. These are people whose relentless, passionate pursuit of Christ often made them appear foolish in the eyes of others. Yet, having tasted His goodness and glimpsed the invisible, they could be satisfied with nothing less. Add your name to the list...become a God chaser. Who know? You might be one whom He catches.

A classic commentary in modern language ... this volume contains the wealth of exposition, metaphors, analogies, and illustrations that have set Matthew Henry ' s Commentary apart as one of the enduring legacies of faith—and presents them in the language of today. Passage by passage, its prayerful, penetrating reflections and rich insights into the very heart of God ' s Word are sure to challenge and inspire you.Ideal for personal devotions, Bible studies, and lesson and sermon preparations, The New Matthew Henry Commentary will enable you to rediscover this classic work—or discover it for the first time. Forever fresh and never failing to render new pearls of wisdom, this beloved text is one that you will reach for often to obtain deeper understanding of and appreciation for the Scriptures.

Adapted from A Short History of Nearly Everything, this stunningly illustrated book from the extraordinary Bill Bryson takes us from the Big Bang to the dawn of science, and everything in between. Perfect for ages 8 to 80. Ever wondered how we got from nothing to something? Or thought about how we can weigh the earth? Or wanted to reach the edge of the universe? Uncover the mysteries of time, space and life on earth in this extraordinary book - a journey from the centre of the planet to the dawn of the dinosaurs, and everything in between. And discover our own incredible journey, from single cell to civilisation, including the brilliant (and sometimes very bizarre) scientists who helped us find out the how and why.

***** Reviews for A Short History of Nearly Everything: 'It's the sort of book I would have devoured as a teenager. It might well turn unsuspecting young readers into scientists.' Evening Standard 'I doubt that a better book for the layman about the findings of modern science has been written' Sunday Telegraph 'A thoroughly enjoyable, as well as educational, experience. Nobody who reads it will ever look at the world around them in the same way again' Daily Express 'The very book I have been looking for most of my life' Daily Mail
