Bang & Olufsen is a high end luxury Danish consumer electronics company that designs and manufactures audio products, television sets, and telephones. It was founded in 1925 by Peter Bang and Svend Olufsen, who designed a radio to work with alternating current, a product of significance at a time when most radios were still running on batteries. In May 2015, Harman International, announced the completion of its acquisition of Bang & Olufsen Automotive car audio business. In March 2017, Tymphany,

Bang & Olufsen - Wikipedia

It all started in 1925, when two engineers, Peter Bang and Svend Olufsen, began a modest production of radios in the attic of the Olufsen family home, 'Quistrup'. The company of 'Bang & Olufsen' was founded on 17 November that same year by the two young engineers who shared a passion for radio transmissions.
