Bash Guide for Beginners- Amazon.co.uk- Garrels- Machtelt...

Bash has four customizable prompts, but only the primary prompt (called PS1) is worth customizing because it's displayed before each command. The remaining three command prompts are displayed only on special occasions, such as when a command needs more input or when debugging bash scripts, so you can safely ignore them.

Linux Terminal Customization Guide for Beginners—Linux Hint

Beginner friendly The book starts out at the very beginning by answering what is a command shell and only then moving forward.

6 Best resources to learn Bash as of 2020—Slant

Machtelt Garrels Bash Guide for Beginners 12 Introduction Why this guide? The primary reason for writing this document is that a lot of readers feel the existing HOWTO1 to be too short and incomplete, while the Bash Scripting2 guide is too much of a reference work. There is nothing in between these two extremes.
