This book is designed to offer a comprehensive beginning course in the technique of the north Indian keyless bamboo flute. Profusely illustrated with charts, exercises, photographs of playing positions and decorative material, the manual will enable a person to appropriate authentic raga materials and methods of development, as taught by the late master flutist and flutemaker, Shri Devendra Murdeshwar. Included are detailed explanations of the fundamentals of a number of essential topics in Hindustani music. These include the scalar system; the concept of raga; microtonalism; the system of teaching and learning; cyclical meter, and others.The included audio CD demonstrates all the notated examples and lessons included in the book, and also includes a full performance by Mr. Leifer of Raga Yemen, one of the ragas taught in the book.This manual will prove especially useful to players seeking to broaden their viewpoint and range of expression on the transverse flute ? an instrument which, in various forms, is played all over the world. Other students of Indian music may also find it useful for the compendious nature of the basic information offered on the music's performance.Lyon Leifer began studying Indian music and bansuri in 1965, after obtaining a degree in flute from the Juilliard School and holding the second flute chair in the St. Louis Symphony. In addition to Devendra Murdeshwar, his flute teachers have included Julius Baker, Walfrid Kujala and Emil Eck. Mr. Leifer resides in the Chicago area where he is an active performer and teacher of both Western and Indian classical music. Appearances have taken him to venues ranging from New York's Lincoln Center to the hall of the Shanghai Symphony, with appearances in any number of places in-between. His performances of raga music on the bansuri have been particularly welcomed by Indian audiences and press.

**** ACCORDING TO BUSINESS INSIDER:** "Getting your MBA has never been easier. Haroun is one of the highest rated professors on Udemy, so you can expect to be in good hands through the course of your education." **** This is the book version of the popular Udemy.com course called "An Entire MBA in 1 Course." From the Author of "101 Crucial Lessons They Don't Teach You in Business School," which Forbes magazine calls "1 of 6 books that all entrepreneurs need to read right now." This book will teach you everything you need to know about business...from starting a company to taking it public. Most business books are significantly outdated. This book leverages many online resources and makes the general business, accounting and finance process very easy to understand (and enjoyable too)! There are many incredibly engaging and entertaining video links in the book to YouTube and other sources; 'edutainment' works! Although this book is close to 400 pages, I tried to visualize the content of this book as much as possible as this is a more impactful and enjoyable way to learn (think Pinterest versus the tiny words in the Economist)! The contents of this book are all based on my work experience at several firms, including Goldman Sachs, the consulting industry at Accenture, a few companies I have started, the hedge fund industry where I worked at Citadel and most recently, based on my experience at a prominent San Francisco based venture capital firm. I also included many helpful practical business concepts I learned while I did an MBA at Columbia University and a Bachelor of Commerce degree at McGill University. Think of this book as a "greatest hits" business summary from my MBA, undergraduate business degree, work experience in consulting, equities, hedge funds, venture capital and starting my own companies. As the title of this book suggests, this is an entire MBA in one book; it's also a practical manual to help you accomplish your business career goals. I have minimized "boring theoretical concepts" in this book in order to keep it as close to reality as possible. I hope you enjoy it! In addition to teaching at 4 universities in the San Francisco Bay Area, you can find other courses that I teach online at www.udemy.com/user/chris-haroun/.**
