Consider: “[B]ecause even the most seemingly bulletproof scientific theories of times past eventually proved wrong, we must assume that today’s theories will someday prove wrong as well. And what goes for science goes in general—for politics, economics, technology, law, religion, medicine, child-rearing, education.

(pg 293) This is one of the most powerful ways being wrong can transform us: it can help us become more compassionate people. Being right might be fun but, as we’ve seen, it has a tendency to bring out the worst in us. By contrast, being wrong is often the farthest thing in the world from fun—and yet, in the end, it has the potential to bring
