markets with technical analysis you would know what I mean.

These writers have some of the best trading strategies they use and have the conviction and the discipline to act assertively and pull the buy or sell trigger regardless of pressures they have against them.

They have presented these strategies at the Traders World Online Expo #14 in video presentations and in this book. What sets these traders apart from other traders? Many think that beating the markets has something to do with discovering and using some secret formula. The traders in this book have the right attitude and many employ a combination of fundamental analysis, technical analysis principles and formulas in their best trading strategies. Trading is one of the best ways to make a lot of money in the world if one does it right. One needs to find successful trading strategies and implement them in their own trading method. The purpose of this

Praise for Big Trends In Trading "Price combines the sciences of contrarian investing, technical analysis, and option valuation in a straightforward, easy-to-understand manner. He has always been well known for his thorough and accurate research, and he shows why in Big Trends in Trading. Serious traders will benefit from reading this book." -Lawrence G. McMillan, President of McMillan Analysis Corp. "Price Headley takes a dynamic view of such popular indicators as sentiment and volatility because he knows that the markets are not static but are always changing, and he shows you how to change with them. In addition, he tests the majority of his work and shows the success rates. A rare combination, and a must read for new and experienced traders alike." -Thom Hartle,

President of Market Analytics, Inc. (www.thomhartle.com) "This book should prove to be valuable reading for all technically oriented traders and investors. By emphasizing the 'big trends,' Headley stresses the importance of concentrating only in the most profitable situations-and tells you how to find them. I personally like his choice of technical indicators-and his unique way of using them. I also like his coverage of money management and the mental aspect of trading-which are just as important as the trading system employed-but too often neglected. All in all, an outstanding piece of work."

Success as a day trader will only come to 10 percent of those who try. It ' s important to understand why most traders fail so that you can avoid those mistakes. The day traders who lose money in the market are losing because of a failure to either choose the right stocks, manage risk, and find proper entries or follow the rules of a proven strategy. In this book, I will teach you trading techniques that I personally use to profit from the market. Before diving into the trading strategies, we will first build your foundation for success as a trader by discussing the two most important skills you can possess. I like to say that a day trader is two things: a hunter of volatility and a manager of risk. I ' ll explain how to find predictable volatility and how to manage your risk so you can make money and be right only 50 percent of the time. We turn the tables
