Biopolitics: A Feminist
and Ecological Reader
on ...

Biotechnology is the
single most powerful
bundle of new
technologies currently
under development. It is
also the most intrusive
and determinative
technology relating to
nature generally and the
human body
specifically. This

File Type PDF

Biopolitics A

Reader brings together some of the most important work from feminists and environmentalists critical of the headlong rush into what is likely to prove a technological minefield.

Biopolitics A

Unlike canonical

Western ethics, Western
environmental ethics

(both feminist and non-
feminist) is predicated

on the claim that

humans have moral
responsibilities (or

obligations) to

nonhuman animals

and/or nature, although

they disagree about the

basis of these

responsibilities. Some

File Type PDF

Biopolitics A

argue that the basis is the intrinsic (or inherent) value of nonhuman animals and/or nature, in contrast with the canonical view that they have merely instrumental (or extrinsic) value.
