Special illustrations: The eighth edition includes many new illustrations and brain scans, particularly in the later chapters, to stimulate student interest and clarify important points. The illustrations in Biopsychology were designed by Pinel and his artist/designer wife, Maggie; thus they are the perfect complement to Pinel's written words.

Pinel, Introduction to Biopsychology, Global Edition, 9th ...

Biopsychology clearly presents the fundamentals of the study of the biology of behavior and makes the topics personally and socially relevant to the student. The defining feature of Biopsychology is its unique combination of biopsychological science and personal, reader-oriented discourse. It is a textbook that is “untextbooklike.”

Pinel, Biopsychology: International Edition, 7th Edition ...

Pinel's Biopsychology is the core text for my first year as an e-learning psychology student. The text is very easy to follow and is written a less formal manner than some text books, which I find a welcome change. The many diagrams and theme tabs are extremely useful, especially on the neuroanatomy module.
