Critical care medicine is one of the fastest-growing areas of practice, and Critical Care Study Guide, 1st ed., was the first reference to combine both concise text and reviews with questions. The second edition expands and improves coverage, including comprehensive studies in airway management, cardioversion and defibrillation, medical ethics, and the use of blood products. The unique combination of text with questions and answers makes this a crucial reference for all practitioners and residents who see patients in the Intensive Care Unit, and those planning to sit for medical boards.

You're probably thinking this is just another typical study guide. Because we know your time is limited, we've created a resource that isn't like most study guides. With Trivium Test Prep's unofficial CCRN Review Book 2019-2020: CCRN Exam Prep Study Guide and Practice Test Questions for the Critical Care Nursing Exam you'll benefit from a quick-but-comprehensive review of everything tested on the exam via real-life examples, graphics, and information. Our materials give you that extra edge you need to pass the first time. AACN was not involved in the creation or production of this product, is not in any way affiliated with Trivium Test Prep, and does not sponsor or endorse this product. Trivium Test Prep's CCRN Review Book 2019-2020 offers: A detailed overview of what you need to know for the CCRN exam Coverage of all the subjects over which you will be tested Practice questions for you to practice and improve Test tips and strategies to help you score higher Trivium Test Prep's CCRN Review Book 2019-2020 covers: Cardiovascular/Pulmonary Endocrine/Hematology/Immunology/Neurology/Gastrointestinal/Renal/Multisystem Behavioral/Psychosocial/Professional Care and Ethical Practice ...and includes a FULL practice test! About Trivium Test Prep Trivium Test Prep is an independent test prep study guide company that produces and prints all of our books right here in the USA. Our dedicated professionals know how people think and learn, and have created our test prep products based on what research has shown to be the fastest, easiest, and most effective way to prepare for the exam. Endorsed by the Australian College of Critical Care Nurses (ACCCN), this 3rd edition presents the expertise of foremost critical care leaders and features the most recent evidence-based research and up-to-date advances in clinical practice, technology, procedures and standards. Expanded to reflect the universal core elements of critical care nursing practice authors, Aitken, Marshall and Chaboyer, have retained the specific information that captures the unique elements of contemporary critical care nursing in Australia, New Zealand and other similar practice environments. Structured in three sections, ACCCN's Critical Care Nursing, 3e addresses all aspects of critical care nursing, including patient care and organisational issues, while highlighting some of the unique and complex aspects of speciality critical care nursing practice, such as paediatric considerations, trauma management and organ donation. Presented in three sections: - Scope of Critical Care - Principles and Practice of Critical Care - Speciality Practice Focus on concepts that underpin practice - essential physical, psychological, social and cultural care New case studies elaborate on relevant care issues Practice tips highlight areas of care particularly relevant to daily clinical practice Learning activities support knowledge, reflective learning and understanding Additional case studies with answers available on evolve NEW chapter on postanaesthesia recovery Revised coverage on metabolic and nutritional considerations for the critically ill patient Alignment with the NEW ACCCN Standards for Practice

This video series looks at many legal and ethical issues which nurses are like to encounter.

Presents information logically, based on the pathophysiology of disease, significance of evidence, and avoidance of harmful effects inherent at the critical care level of nursing practice. Chapters include critical care basics, holistic care issues, body system-based conditions, and hematologic, immune and multisystem disorders. This new edition is completely updated to incorporate the spectrum of critical care and evidence-based nursing practice, ranging from moderate sedation and perianesthesia management to special concerns for patients who are elderly, the types of shock, management of stroke, and more.

AACN Scope and Standards for Acute Care Nurse Practitioner Practice describes and measures the expected level of practice and professional performance for acute care nurse practitioners (ACNPs), incorporating advances in scientific knowledge, clinical practice, technology and other changes in the dynamic healthcare environment. It offers a practical tool for students, educators and advanced practice nurses caring for high acuity or critically ill patients and their families in every setting.
