firearms industry has announced the release of its 41st Edition, dedicated in memoriam to the late publisher Steven Peter "S.P." Fjestad. Spanning over 2,500 pages, the 41st Edition contains upwards of 1,700 trademarks with brief histories, approximately 23,000 descriptions of firearm models from across the globe including the new makes and models for 2020 and 500,000-plus up-to-date values for modern firearms and major trademark antiques. Additionally, the latest edition's expanded serialization charts allow more years of manufacture to be determined on individual firearm makes and models. A feature of the book that collectors in particular will find helpful is its 80-page "Photo Percentage Grading System" to assist in determining the condition of a firearm, with guidelines available for pistols, revolvers, rifles and shotguns.

The new 33rd Edition of the Blue Book of Gun Values by S.P. Fjestad has been expanded to 2,432 pages, easily making it the highest page count of any firearms book currently in print. New 2012 makes and models have been included, along with updated values on discontinued firearms and antiques. Once again, the 80-page Photo Percentage Grading System provides high resolution color images that are the last word to help ascertain any firearm's correct condition factor based on the percentage of original condition. Revolvers, pistols, rifles, and shotguns are also shown separately, in addition to NRA Antique Condition Factors.

A pricing guide for antique and collectible firearms that contains detailed listings and pricing based on national average retail pricing, and includes over seventy full-color photographs.
