From 1963 to 1974, muscle cars were the kings of the road—no other American automobiles have ever inspired as much passion as these classic performance cars. Muscle Car Source Book is a one-stop resource for muscle car fans. Heavily illustrated with vivid color photography of all the muscle cars from the classic era (1963-1974) and chock full of data and historical facts, this is a reference book you will not want to put down! All of the manufacturers—Ford, Chevrolet, Pontiac, Buick, AMC, Dodge, and Plymouth—are covered, and so are the cars, including the Camaro, Mustang, Charger, GTO, and many more! Statistics: All the performance data available for each car is presented in easily read tables. Specifications: Detailed specifications, including horsepower and torque ratings, curb weight, fuel capacity, stock wheel and tire sizes, and other key technical data unique to each model is given. Production numbers: Production information is broken down across all the performance variants and major features. Options: Major performance options available for each car including engine options, comfort features, gauge packages, and wheel-and-tire options are all outlined.

That is what this book is about. It is a framework for planning, in which habitat is the key to managing wildlife and making forest managers accountable for their actions. This book is based on the collective knowledge of one group of resource professionals and their understanding about how wildlife relate to forest habitats. And it provides a longoverdue system for considering the impacts of changes in forest structure on all resident wildlife.
