~~Bolens G274 (new to me) - I have an operator's manual but I can't seem to get the feathering control to operate. Unfortunately there must have been a design change between printing and manufacture. The directions talk about a dash switch, a dash lever, and another lever down by the driver's left calf. The machine doesn't have the dash lever.~~

Recently purchased Bolens G274. The owner's manual that came with it says it has an Isuzu 3AE1 engine but the only name (on the valve cover) I see on it is Iseki. The loader frame and hoses block my view of where the serial # is supposed to be located. Anybody have any clue as to what I have here ?
