F stands for "funny" in this perfect gift for students or anyone who has ever had to struggle through a test and needs a good laugh. Celebrating the creative side of failure in a way we can all relate to, F in Exams gathers the most hilarious and inventive test answers provided by students who, faced with a question they have no hope of getting right, decide to have a little fun instead. Whether in science (Q: What is the highest frequency noise that a human can register? A: Mariah Carey), the humanities (Q: What did Mahatma Gandhi and Genghis Khan have in common? A: Unusual names), math, or other subjects, these 250 entries prove that while everyone enjoys the spectacle of failure, it's even sweeter to see a FAIL turn into a WIN.

The Mom Test is a quick, practical guide that will save you time, money, and heartbreak. They say you shouldn't ask your mom whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little . As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right . Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're supposed to do it, but nobody seems willing to admit that it's easy to screw up and hard to do right. This book is going to show you how customer conversations go wrong and how you can do better.

An essential library of tests for self-knowledge and success, from the strategic thinking experts behind the international bestseller The Decision Book. Are you clever? Can you self-motivate? Are you creative? How do you handle money? Can you lead others well? With their trademark style and wit, best-selling authors Mikael Krogerus and Roman Tschäppeler present sixty-four tests spanning intelligence and personality type; creativity and leadership skills; fitness and lifestyle; and knowledge and belief. From what you see in a Rorschach test to comparing your workout against a Navy SEAL's, from EQ to IQ and Myers-Briggs in between, The Test Book offers a panoply of ways to assess yourself and decide what you need to succeed. As Krogerus and Tschäppeler highlight, you can only know whether you have the right skills, the right job, or the right partner when you know where you stand right now. Small enough to fit in your pocket but packed with insight and good humor, The Test Book delivers a quick, fun way to evaluate your life and happiness.

This Book Will Be on the Test helps students make the most of their college investment by solving their academic, motivational, and career concerns with study skills, teaches students how to earn better grades in less time and shows parents what they can expect from their kids' college experiences.

Know if you'll hit your targets before pulling the trigger on any marketing plan More than sixty five percent of new products are commercial failures, and if you compound this with a recession, now more than ever you can't afford to be wrong. In If You Build It Will They Come, business professor and strategy consultant Rob Adams shows you how to make sure you hit your target market before you spend a lot of money. He shows you the fast, systematic and proven approach of performing Market Validation in advance of making a large product investment. Adams outlines a simple and effective market validation and testing strategy that is proven, giving entrepreneurs and managers the ability to dramatically improve the prospect of product success. He explains how to quickly gather information on competitors, directly interview members of your target market, and figure out what the market really wants to buy, verus what customers say they want. The steps to quickly understanding the viability of your market Where to go to gather the information needed to hit the market requirements How to follow through with the right product launched in the right way Adams cuts through the fancy terms and expensive market research that gives lots of data but no real product oriented information about usage, pricing, features and competitive forces. In the end you'll produce results on your first release of a far more mature product, shipped in a faster timeframe with features customers will actually use. This book is for anyone involved with designing, developing and launching new products. Its examples and advice cover everything from the fledgling start-up that needs their first product to work just to survive to the successful Fortune class company establishing new worldwide markets. Examples cut across all major industrial sectors including consumer, retail, manufacturing, technology, life sciences and services. This book offers the step-based guidance you need to make sure failure is not an option.

A bear and a frog attempt to answer the age-old question "How do books work?" in this clever, interactive picture book from animator Louie Zong. Test This Book! features a bear scientist and a frog scientist testing how books work in a variety of exciting, dramatic experiments. What happens when readers sit on their books? Shake them? Whisper secrets to them? The results are funny, surprising, and very, very informative. This hilarious picture book is a great read-aloud experience, as readers are rewarded for physically interacting with the book. And they also learn a little about the scientific method--the basis of all STEM education. An Imprint Book
