Isolation, remoteness from one's native land, and the loss of language are but a few of the themes that recur in the literature of exile written over the centuries. In this book, the first study of the theme of exile in Canadian literature, Hallvard Dahlie brings together a broad spectrum of Canadian writers -- writers from the Old World who have

become exiles to Canada, but also Canadians who have exiled themselves for varying periods from Canada.

Five childhood friends are divided by love, lust, envy, and greed. When money, power, and respect just isn't enough. Family and friends become natural enemies. The blood is shed as friendships are tested and trusts are betrayed. Cartier Diamond is the first novel in a series of novels called The Diamond Collection

The idea for this book was conceived by the late Dr. Irvine A. Watson of the University of Sydney, and he developed the

first outline. I was then invited by Dr. Watson to share in its writing. Unfortunately, shortly there after, recurring heart problems forced him to curtail his activities and with draw from the project. He died before the book could be completed. Dr. Watson's intention was to produce a very practical book that would provide wheat breeders with all of the information necessary to breed success fully for resistance to the three wheat rusts: leaf rust, stem rust, and yellow rust. It was intended to be very specific in describing procedures to be used and at the same time provide all of the necessary theoretical background. I hope that I have been successful in meeting these objectives. The book assumes that the reader has some knowledge of plant pathology, genetics, and plant breeding. Extensive use has been made of

the literature, but it was not possible to cite all of the papers on a given topic. In making a choice, an attempt was made to choose key papers or more recent papers that provided references to the earlier literature. Acknowledgements This book was written partly at the University of Saskatchewan and partly at the University of California, Davis, while I was on a sabbatical leave.

This book is a collection of esoteric poetry and sacred geometry art, interwoven to engage the reader in a meditative consciousness. The interconnectedness of all existence resonates awareness as a self-same identity: Speak unto the void, and the void speaks also to you.

Contemporary Latin American Cinema investigates the ways in which neoliberal measures of privatization, de-regularization and austerity introduced in Latin America during the 1990s have impacted film production and film narratives. The collection examines the relationship between economic policies and the films that depict recent transformations in many Latin American countries, demonstrating how contemporary Latin American film has not only criticized and resisted, but also benefitted from neoliberal advancements. Based on films produced in Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Mexico and Peru since 2010, the fourteen case studies illustrate neoliberalism ' s effects, from big industries to small national cinemas. It also shows the new types of producers that have

emerged, and the novel patterns of distribution, exhibition and consumption that shape and influence the Latin American filmscape. Through industry studies, reception analyses and close readings, this book establishes an informative and accessible text for scholars and students alike.
