First smart spreader First Tandem spreader In 1995, Bromma changed the world of logistics through its release of the world's first smart spreader. It was a response to increasing demands from the terminal industry for higher crane availability. By integrating an intelligent control system into the spreader, Bromma made it...

Bromma Company Brochure - BROMMA - PDF Catalogs ...

Bromma's vast global experience (Bromma spreaders are in use today at 96 out of the top 100 container ports) is also a major factor in the dependability of Bromma equipment. Bromma knows what terminals need, what can go wrong, and how to deliver equipment that performs in the "real world" scenarios that terminals face every day. Weight & Energy Spreader weight directly impacts crane ...

SHIP-TO-SHORE SPREADERS

Bromma spreader manufacturing plant has the largest capacity in world. Our manufacturing plant reflects Bromma's commitment to excellence in spreader design and manufacturing. As a result, Bromma was awarded ISO3834, ISO9001, ISO14001 and ISO45001 certification for all its manufacturing sites. At our factories a combination of automated rapid arc welding and manual welding is used. We ensure ...

### About Us - Bromma

Bromma's family of dedicated, purpose-built yard spreaders are high-productivity, low-downtime, lowmaintenance, long-distance runners - spreaders that deliver an excellent return on investment. The product family we call Bromma Marathon™ performs reliably, day after day, year after year, in some of the most demanding terminals in the world.
