Bronstein On the King's Indian. David Bronstein. I bought this book for two reasons: Brontein's name and sections 2 and 3. Bronstein is famous for many unique characteristics: let the Champion, Botvinnik, escape with a draw; lost to Spassky by King Gambit in a Soviet Championship; a few year later beat Tal (!) in a KG (again) in a USSR team championship; meditating the first move as white for more than 30 min before making it!

His pioneering theoretical and practical work (along with fellow Ukrainians Boleslavsky and Efim Geller) in transforming the King's Indian Defence from a distrusted, obscure variation into a popular major system should be remembered, and is evidenced in his key contribution to the 1999 book, Bronstein on the King's Indian. Bronstein played an exceptionally wide variety of openings during his long career, on a scale comparable with anyone else who ever reached the top level.

The Afghan people are standing at a crucial crossroads in history. Can their fragile democratic institutions survive the drawdown of US military support? Will Afghan women and girls be stripped of their modest gains in freedom and opportunity as the West loses interest in their plight? While the media have largely moved on from these stories, Paula Bronstein remains passionately committed to bearing witness to the lives of the Afghan people. In this powerful photo essay, she goes beyond war coverage to reveal the full complexity of daily life in what may be the world's most reported on yet least known country. *Afghanistan: Between Hope and Fear* presents a photographic portrait of this war-torn country's people across more than a decade. With empathy born of the challenges of being an American female photojournalist working in a conservative Islamic country, Bronstein gives voice to those Afghans, particularly women and children, rendered silent during the violent Taliban regime. She documents everything from the grave trials facing the country—human rights abuses against women, poverty and the aftermath of war, and heroin addiction, among them—to the stirrings of new hope, including elections, girls' education, and work and recreation. Fellow award-winning journalist Christina Lamb describes the gains that Afghan women have made since the overthrow of the Taliban, as well as the daunting obstacles they still face. An eloquent portrait of everyday life, *Afghanistan: Between Hope and Fear* is the most complete visual narrative history of the country currently in print.

authoritative English translation from the Russian, this volume was written by one of the leading competitors. Its perceptive coverage includes games by Smyslov, Keres, Reshevsky, Petrosian, and 11 others. Algebraic notation. 352 diagrams.

The Stuff of Legend A great tournament deserves a great book. That's what grandmaster Miguel Najdorf produced in his account of one of the greatest and most important chess events of all time, the 1953 Zürich Candidates Tournament, in which 15 of the world's top players battled for the right to challenge the world champion, Mikhail Botvinnik. After two months and 210 games, many of which rank among the best ever played, Russian grandmaster Vassily Smyslov finally came out at the head of a star-studded field that included Sam Reshevsky, Paul Keres, David Bronstein, Tigran Petrosian, Efim Geller, Alexander Kotov, Mark Taimanov, Yuri Averbakh, Isaac Boleslavsky, Laszló Szabó, Svetozar Gligoric, Max Euwe, Gideon Ståhlberg, and Najdorf himself. This is the first English edition of this classic work, until now available only in its original Spanish. It includes all 210 games with Najdorf's full and extensive notes, plus all the original introductory material, biographical sketches of the players, round-by-round accounts of the action, closing summary, and a survey of the tournament's impact on opening theory. Additionally this edition has many more diagrams and photos, an introduction by Yuri Averbakh (one of the last surviving participants) and a foreword by Andy Soltis.

First published in Russian in 2014 and written by Genna Sosonko - widely recognized as the number one writer on the history of Soviet chess - this is a truly unique book about the life and destiny of the great chess player David Bronstein (1924-2006). Emerging from a challenging background - he narrowly escaped the holocaust in WWII, during which he starved, and his father spent seven years in a gulag - Bronstein faced Botvinnik in the world championship match in 1951 and nearly defeated him. But this 'nearly' inflicted a wound on David so deep that it would not heal for the rest of his life. Sosonko knew Bronstein well. Their conversations - many of which have made it into this book - not only portray the thoughts and character of one of history's most original grandmasters but also take us back to a time unlike any other in world history. This is not a biography in the traditional sense of the word. Rather, Sosonko's fascinating book asks eternal questions which don't have neat and simple answers. With a foreword to the English edition by Garry Kasparov.

The legendary David Bronstein, artist and sorcerer of the chess board, uses examples from his own brilliant games to develop club player's skills. An unconventional book with interesting stories and easy-to-understand teaching material. This is a revised and expanded edition of a modern chess classic, written by an icon of chess in the 20th century.

A crucial decision spared chess Grandmaster David Bronstein almost certain death at the hands of the Nazis--one fateful move cost him the world championship. Russian champion Mark Taimanov was a touted as a hero of the

Soviet state until his loss to Bobby Fischer all but ruined his life. Yefim Geller's dream of becoming world champion was crushed by a bad move against Fischer, his hated rival. Yuri Averbakh had no explanation how he became the world's oldest grandmaster, other than the quixotic nature of fate. Vasily Smyslov, the only one of the five to become world champion, would reign for just one year--fortune, he said, gave him pneumonia at the worst possible time. This book explores how fate played a capricious role in the lives of five of the greatest players in chess history.
