Parasite. Korean director Bong Joon Ho is one of the more interesting auteurs currently working in film. He'd broken out with *The Host* in 2006, a low budget and highly effective creature feature (not to be confused with the 2013 adaptation of a Stephanie Meyer novel that wasted Saoirse Ronan). His first English language film was the dystopia-on-rails story *Snowpiercer*.

Budgeting 3e specifically addresses the budgeting component of the National Accounting Training Package, but will also be suitable for any course containing a basic budgeting unit. Competency-based training and flexible delivery are the key conceptual tools for education in the Australian VET system and this book has been written with these aims in mind. This new edition provides a more in-depth insight into the principles of budgeting and forecasting. The easy-to-use structure and layout has been maintained and the book presents a logical explanation of budgeting, beginning from basics and working its way into more complex problems to ensure student learning is maximised.

Capital Budgeting and Investment Analysis marries theory with practice by providing numerous illustrations of real-world applications. It includes a discussion of capital budgeting's link to the corporation's strategy for creating value as well as addressing the international aspects of capital budgeting. The basic philosophy of this book is to help students develop their critical thinking skills required to assess potential investments. Topics covered include the basics of capital budgeting, the estimation of project cash flows and the project cost of capital, risk analysis in capital budgeting, and corporate strategy and its relationship to the capital-budgeting decision.

The most complete book on this subject available on the market, Capital Budgeting blends theory with practice by providing numerous real-world examples of its applications. It includes a discussion of capital budgeting's link to the corporate strategy for creating value as well as addresses the international aspects of capital budgeting. After a comprehensive introduction to the subject, this book covers capital budgeting principles and techniques; estimating project cash flows; biases in cash flow estimates; foreign investment analysis; real options and project analysis; risk and incorporating risk in a capital budgeting analysis; estimating project cost; financing side effects; discount rates for foreign investments; and corporate strategy and the capital budgeting decision. An excellent handbook for chief financial officers, vice-presidents of finance; treasurers; and comptrollers.

This text has been written to provide managers, who are non-financial specialists, with a clear understanding of financial management principles. It teaches students how to plan and implement financial management approaches, monitor and control finances, review and evaluate financial management processes, and explores financial mathematics and other techniques, financing sources and their mix, cash flow techniques for evaluating capital expenditure and techniques for financial analysis.
