Much has been written about the jazz language or the jazz vocabulary. Linguistic references are sensible and proper because, just as we speak in words and phrases derived from the alphabet, so do we improvise jazz in musical phrases derived from notes. In speech, choosing the right words is essential to expressing ourselves properly and making a statement. Likewise, choosing the right notes is essential to properly expressing ourselves and making a musical statement.

This text presents all of the materials commonly used by the jazz musician in a logical order dictated both by complexity and need. The book is not intended to be either an arranging or improvisation text, but a pedagogical reference providing the information musicians need to pursue any activity they wish.

Motives---also referred to as motifs, licks, or clichés---are the building blocks of a good jazz vocabulary. This book shows how motives may be developed using simple five-note major, minor, and diminished scales and how to apply chromatic embellishment to those scales. The "magic" appears when you discover that any motives created from these scales may be superimposed over a variety of chords with equally good results. Includes detailed explanation and pages of motives in a variety of harmonic situations, including standard chord changes. Also included is a CD of practice tracks with play-along parts in the book transposed for all instruments. Expand your creative universe! Over 100 pages.
