Comparative Company Law provides a systematic and coherent exposition of company law across jurisdictions, augmented by extracts taken from key judgments, legislation, and scholarly works. It provides an overview of the legal framework of company law in the US, the UK, Germany, and France, as well as the legislative measures adopted by the EU and the relevant case law of the Court of Justice. The comparative analysis of legal frameworks is firmly grounded in legal history and legal and economic theory and bolstered by numerous extracts (including extracts in translation) that offer the reader an invaluable insight into how the law operates in context. The book is an essential guide to how company law cuts across borders, and how different jurisdictions shape the corporate lifespan from its formation by way of incorporation to its demise (corporate insolvency) and eventual dissolution. In addition, it offers an introduction to the nature of the corporation, the framework of EU company law, incorporation and corporate representation, agency problems in the firm, rights of stakeholders and shareholders, neutrality and defensive measures in corporate control transactions, legal capital, piercing the corporate veil, and corporate insolvency and restructuring law.

A sweeping and authoritative study of wealth inequality and the dismantling of local government in four working-class cities across the US that passionately argues for reinvestment in people-centered leadership. Decades of cuts to local government amidst rising concentrations of poverty have wreaked havoc on communities left behind by the modern economy. Some of these discarded places are rural. Others are big cities, small cities, or historic suburbs. Some vote blue, others red. Some are the most diverse communities in America, while others are nearly all white, all Latino, or all Black. All are routinely trashed by outsiders for their poverty and their politics. Mostly, their governments are just broke. Forty years after the anti-tax revolution began protecting wealthy taxpayers and their cities, our high-poverty cities and counties have run out of services to cut, properties to sell, bills to defer, and risky loans to take. In *The Fight to Save the Town*, urban law expert and author Michelle Wilde Anderson offers unsparing, humanistic portraits of the hardships left behind in four such places. But this book is not a eulogy or a lament. Instead, Anderson travels to four blue-collar communities that are poor, broke, and progressing. Networks of leaders and residents in these places are facing down some of the hardest challenges in American poverty today. In Stockton, California, locals are finding ways, beyond the police department, to reduce gun violence and treat the trauma it leaves behind. In Josephine County, Oregon, community leaders have enacted new taxes to support basic services in a rural area with fiercely anti-government politics. In Lawrence, Massachusetts, leaders are figuring out how to improve job security and wages in an era of backbreaking poverty for the working class. And a social movement in Detroit, Michigan is pioneering ways to stabilize low-income housing after a wave of foreclosures and housing loss. Our smallest governments shape people ' s safety, comfort, and life chances. For decades, these governments have no longer just reflected inequality—they have helped drive it. But it doesn ' t have to be that way. Anderson argues that a new generation of local leaders are figuring out how to turn poverty traps back into gateway cities.
