It does however require the understanding that each decimal place to the right of the decimal point represents a power of 10; the first decimal place being 10^{-1} , the second 10^{-2} , the third 10^{-3} , and so on. Simply determine what power of 10 the decimal extends to, use that power of 10 as the denominator, enter each number to the right of the ...

Visual Studio use the latest major release of the language (which would be 7.0 as of this writing). To change this, open up the project's properties, select the Build page, click Advanced..., and under General set Language Version to "C# 7.2".. Per phuzi's comment mentioning this question, you might need to update to the latest Visual Studio in order to see this option.
