Stiffer than 7x19, more flexible than 1x19. Stainless 7x7 commonly used for cable railings, and marine applications. Diameters less than 1/8" exhibit great balance of flexibility and strength. Each 6x19 wire rope strand begins with one large center wire that is covered by a layer of nine smaller wires

Access Free Cable Rigging Guide

and then an outside layer of nine larger wires. The 6x19 wire rope has larger outer wires than 7x19 which adds to an increased abrasion resistance but also decreases its fatigue resistance.
