the horrors in four concentration camps - and of one man's struggle to maintain dignity in a crumbling world. Martin Lax offers a powerful witness to hope and a prophetic reminder that unless society changes its attitudes and values, "there will be other Shoahs, and not just for Jews".

Fantasies of Witnessing explores how and why those deeply interested in the Holocaust, yet with no direct, familial connection to it, endeavor to experience it vicariously through sites or texts designed to make it "real" for nonwitnesses. Gary Weissman argues that far from overwhelming nonwitnesses with its magnitude of horror, the Holocaust threatens to feel distant and unreal. A prevailing rhetoric of "secondary" memory and trauma, he contends, and efforts to portray the Holocaust as an immediate and

personal experience, are responses to an encroaching sense of unreality: "In America, we are haunted not by the traumatic impact of the Holocaust, but by its absence. When we take an interest in the Holocaust, we are not overcoming a fearful aversion to its horror, but endeavoring to actually feel the horror of what otherwise eludes us." Weissman focuses on specific attempts to locate the Holocaust: in the person of Elie Wiesel, the most renowned survivor, and his classic memoir *Night*; in videotaped survivor stories and Lawrence L. Langer's celebrated book *Holocaust Testimonies*; and in the films *Shoah* and *Schindler's List*. These representations, he explains, constitute a movement away from the view popularized by Wiesel, that those who did not live through the Holocaust will never be able to grasp its horror, and toward re-creating the Holocaust as an "experience" nonwitnesses may put themselves through. "It is only

by acknowledging the desire that gives shape to such representations, and by exploring their place in the ongoing contest over who really 'knows' the Holocaust and feels its horror, that we can arrive at a more candid assessment of our current and future relationships to the Holocaust," he says.

In the late 1980s, Holocaust literature emerged as a provocative, but poorly defined, scholarly field. The essays in this volume reflect the increasingly international and pluridisciplinary nature of this scholarship and the widening of the definition of Holocaust literature to include comic books, fiction, film, and poetry, as well as the more traditional diaries, memoirs, and journals. Ten contributors from four countries engage issues of authenticity, evangelicalism, morality, representation, personal experience, and

wish-fulfillment in Holocaust literature, which have been the subject of controversies in the US, Europe, and the Middle East. Of interest to students and instructors of antisemitism, national and comparative literatures, theater, film, history, literary criticism, religion, and Holocaust studies, this book also contains an extensive bibliography with references in over twenty languages which seeks to inspire further research in an international context.

Whether it's a novel, memoir, diary, poem, or drama, a common thread runs through the literature of the Nazi Holocaust--a "motif of personal testimony to the dearness of humanity." With that perspective the expert authors of Encyclopedia of Holocaust Literature undertake profiling 128 of the most influential first generation authors who either survived, perished, or were closely

connected to the Holocaust. Arranged alphabetically by author, the entries are organized into three primary divisions: (1) an opening section on why the author's work is significant or distinctive; (2) a section containing biographical information, followed by (3) a critical examination of the highlights of the author's work. The Encyclopedia is intended for all students and teachers of the Holocaust, regardless of their levels of learning.

After the Fact studies the terrain of Holocaust documentaries subsequent to the turn of the twenty-first century. Until now most studies have centered primarily on canonical films such as Shoah and Night and Fog, but over the course of the last ten years filmmaking practices have altered dramatically. Changing techniques, diminishing communities of survivors, and the public's

response to familiar, even iconic imagery, have all challenged filmmakers to radically revise and newly envision how they depict the Holocaust. Innovative styles have emerged, including groundbreaking techniques of incorporating archival footage, survivor testimony, and reenactment. Carrying wider implications for the fields of Film Studies, Jewish Studies, and Visual Studies, this book closely analyzes ten contemporary and internationally produced films, most of which have hardly been touched upon in the critical literature or elsewhere.

Im Grauen des Bombenkrieges wurden sie zur letzten Zuflucht für viele, andere mussten miterleben und miterleiden, wie hier der Terror des NS-Regimes knapp vor Kriegsende einen letzten wahnwitzigen Höhepunkt erreichte.
