John Holt, the American educator, was passionate about the need for alternatives to traditional institutional schooling, seeing schools as often hindering children from learning rather than helping them; he became an important proponent of homeschooling or 'unschooling', was a pioneer in youth rights theory and had a profound influence on school reform in particular and educational philosophy in general. Here, Roland Meighan challenges the often held notion that Holt's

work was 'romantic' and impractical within the context of compulsory schooling. He brings together the work and thinking of John Holt into applicable theory for education students, enabling readers to appreciate the view that individuals outside the education system can influence and change what is happening within it.

This is a revised edition by David Herbert Donald of his former professor J. G. Randall's book *The Civil War and Reconstruction*, which was originally published in 1937 and had long been regarded as "the standard work in its field", serving as a useful basic Civil War reference tool for general readers and textbook for college classes. This Second Edition retains many of the original chapters, "such as those treating

border-state problems, non-military developments during the war, intellectual tendencies, anti-war efforts, religious and educational movements, and propaganda methods [...] bearing evidence of Mr. Randall's thoroughgoing exploration of the manuscripts and archives," whilst it expands considerably on other original chapters, such as those relating to the Confederacy. Still other portions have been entirely recast or rewritten, such as the pre-war period chapters and Reconstruction chapters, reflecting factual updates since Randall's original publication. A must-read for all Civil War students and scholars.

Here, Michael F. Holt gives us the only comprehensive history of the Whigs ever written. He offers a panoramic account of the tumultuous antebellum period, a time when a flurry of parties and larger-than-life politicians--Andrew Jackson, John C. Calhoun, Martin Van Buren, and Henry Clay--struggled for control as the U.S. inched towards secession. It was an era when Americans were passionately involved in politics, when local concerns drove national policy, and when momentous political events--like the Annexation of Texas and the Kansas-Nebraska Act--rocked the country. Amid this contentious political activity, the Whig Party continuously strove to unite North and South, emerging as the nation's last great hope to

nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future

How partisan politics lead to the Civil War What brought about the Civil War? Leading historian Michael F. Holt convincingly offers a disturbingly contemporary answer: partisan politics. In this brilliant and succinct book, Holt distills a lifetime of scholarship to demonstrate that secession and war did not arise from two irreconcilable economies any more than from moral objections to slavery. Short-sighted politicians were to blame. Rarely looking beyond the next election, the two dominant political parties used the

emotionally charged and largely chimerical issue of slavery's extension westward to pursue reelection and settle political scores, all the while inexorably dragging the nation towards disunion. Despite the majority opinion (held in both the North and South) that slavery could never flourish in the areas that sparked the most contention from 1845 to 1861-the Mexican Cession, Oregon, and Kansas-politicians in Washington, especially members of Congress, realized the partisan value of the issue and acted on short-term political calculations with minimal regard for sectional comity. War was the result. Including select speeches by Lincoln and others, *The Fate of Their Country* openly challenges us to rethink a seminal moment in America's history.

Ordinary people don't experience history as it is taught by historians. They live across the convenient chronological divides we impose on the past. The same people who lived through the Civil War and the eradication of slavery also dealt with the hardships of Reconstruction, so why do we almost always treat them separately? In *Children of Fire*, renowned historian Thomas C. Holt challenges this form to tell the story of generations of African Americans through the lived experience of the subjects themselves, with all of the nuances, ironies, contradictions, and complexities one might expect. Building on seminal books like John Hope Franklin's *From Slavery to Freedom* and many others, Holt captures the

entire African American experience from the moment the first twenty African slaves were sold at Jamestown in 1619. Each chapter focuses on a generation of individuals who shaped the course of American history, hoping for a better life for their children but often confronting the ebb and flow of their civil rights and status within society. Many familiar faces grace these pages—Frederick Douglass, W.E.B. DuBois, Martin Luther King, and Barack Obama—but also some overlooked ones. Figures like Anthony Johnson, a slave who bought his freedom in late seventeenth century Virginia and built a sizable plantation, only to have it stolen away from his children by an increasingly racist court system. Or Frank Moore, a WWI veteran and sharecropper who sued his landlord for unfair practices, but found himself charged with

This Newbery Honor Book and Coretta Scott King Award Winner from beloved author Patricia McKissack offers a “stellar collection” of “ten original stories, all with a foundation in African-American history or culture” (School Library Journal). In that special half-hour of twilight—the dark-thirty—there are stories to be told. Mesmerizing and breathtakingly original, these tales are inspired by African American history and range from the time of slavery to the civil rights era. With her extraordinary gift for suspense,
