Healthcare providers, consumers, researchers and policy makers are inundated with unmanageable amounts of information, including evidence from healthcare research. It has become impossible for all to have the time and resources to find, appraise and interpret this evidence and incorporate it into healthcare decisions. Cochrane Reviews respond to this challenge by identifying, appraising and synthesizing research-based evidence and presenting it in a standardized format, published in The Cochrane Library (www.thecochranelibrary.com). The Cochrane Handbook for Systematic Reviews of Interventions contains methodological guidance for the preparation and maintenance of Cochrane intervention reviews. Written in a clear and accessible format, it is the essential manual for all those preparing, maintaining and reading Cochrane reviews. Many of the principles and methods described here are appropriate for systematic reviews applied to other types of research and to systematic reviews of interventions undertaken by others. It is hoped therefore that this book will be invaluable to all those who want to understand the role of systematic reviews, critically appraise published reviews or perform reviews themselves.

Vols. for 1958 contain Minutes of the 100th General Assembly of the United Presbyterian Church of North America, the 170th General Assembly of the Presbyterian Church in the U.S.A., and the 170th General Assembly of the United Presbyterian Church of the U.S.A., the reports of the boards of the Presbyterian Church in the U.S.A. and the United Presbyterian Church of North America, and statistics of the two latter bodies.

A total of 5 chapters have been added , which will add to knowledge base and understanding of students:- Three chapters in Tooth Morphology section, Evolution of Teeth and Comparative Dental Anatomy, Guidelines for Drawing Tooth Morphology Diagrams, and Functional Occlusion and Malocclusion, which will help students in systematic understanding of morphological development of teeth.- One chapter in Oral Histology section, Introduction to Oral Histology, has been added to abreast students with the basic knowledge of cell structure which forms the basics of histological study.- One chapter in Physiology section, Somatosensory System, has been added, that will update the knowledge of the students.Each chapter opens with an Overview to sensitize students with the content of the chapter .Applied aspect has been added in each chapter to enhance the clinical understanding of the subject.Mind Maps have been added at the end of each chapter, which highlight the important topics of the chapter to facilitate easy learning .Essentials of the chapters in a tabular form for easy retention and recall have been given on Lippincott Gurukul site.
