Leading and Managing in Nursing, 6th Edition offers an innovative approach to leading and managing by merging theory, research, and practical application to better prepare you for the NCLEX® exam and the transition to the practice environment. This cutting-edge text is organized around the issues that are central to the success of professional nurses in today's constantly changing healthcare environment, including consumer relationships, cultural diversity, resource management, delegation, and communication. UNIQUE! Each chapter opens with The Challenge, where practicing nurse leaders/managers offer their real-world views of a concern related in the chapter, encouraging you to think about how you would handle the situation. UNIQUE! The Solution closes each chapter with an effective method to handle the real-life situation presented in The Challenge, and demonstrates the ins and outs of problem solving in practice. The Evidence boxes in each chapter summarize relevant concepts and research from nursing/business/medicine literature. Theory boxes highlight and summarize pertinent theoretical concepts related to chapter content. Research and Literature Perspective boxes summarize timely articles of interest and point out their relevance and applicability to practice. Separate chapters on key topic areas such as cultural diversity, consumer relationships, delegation, managing information and technology, legal and ethical issues, and many more. End-of-chapter Tips offer guidelines for applying information presented in the chapter. Numbered exercises challenge you to think critically about concepts in the text and apply them to real-life situations. Eye-catching full-color design helps engage and guide you through each chapter. Glossary alphabetically lists and defines all the boldfaced key terms from the chapters. Chapter Checklists provide a quick summary of key points and serve as a handy study tool. NEW! QSEN competencies incorporated throughout the text emphasize the importance of providing safe, high-quality nursing care. NEW! What New Graduates Say section at the end of each chapter provides you with a real-world perspective on the transition to clinical practice. NEW! Expanded content on legal and ethical issues, care delivery strategies, staffing, quality, and consumer relationships. NEW! Updated photos throughout the book maintain a contemporary and visually appealing look and feel.

The complete body of knowledge for CIMA candidates and professionals The 2015 Certified Investment Management Analyst Body of Knowledge + Test Bank will help any financial advisor prepare for and pass the CIMA exam, and includes key information and preparation for those preparing to take the test. CIMA professionals integrate a complex body of investment knowledge, ethically contributing to prudent investment decisions by providing objective advice and guidance to individual and institutional investors. The CIMA certification program is the only credential designed specifically for financial professionals who want to attain a level of competency as an advanced investment consultant. Having the CIMA designation has led to more satisfied careers, better compensation, and management of more assets for higher-net-worth clients than other advisors. The book is laid out based on the six domains covered on the exam: I. Governance II. Fundamentals (statistics, finance, economics) III. Portfolio Performance and Risk Measurements IV. Traditional and Alternative Investments V. Portfolio Theory and Behavioral Finance VI. Investment Consulting Process

Covering the nurse's role in promoting community health, Community/Public Health Nursing, 5th Edition is known for its "upstream" preventive focus and social justice approach, photo novellas with clinical stories, and a concise, readable style. It shows how you, as a nurse, can take an active role in social action and health policy – especially in caring for diverse population groups. Expert authors Mary A. Nies and Melanie McEwen discuss today's issues and trends, and describe the key issues and responsibilities of contemporary community/public health nursing. An "upstream" focus addresses factors that are the precursors to poor health in the community. A "social justice" approach promotes health for everyone. Photo novellas use photographs to tell stories showing real-life clinical scenarios and applications of important community health nursing roles. Case Study: Application of the Nursing Process feature presents specific community components of the nursing process separately from individual and family. Clinical examples offer snapshots of real-life client situations. Research Highlights boxes show the application of current research to chapter content. Ethical Insights boxes highlight ethical issues and concerns. Health People 2020 boxes summarize objectives and their importance in community health. Objectives, key terms, and chapter outlines introduce important concepts and terminology at the beginning of every chapter. Learning Activities at the end of each chapter ask you to apply concepts to the world outside the classroom. New Health Promotion and Risk Reduction chapter details the promotion of health and presents strategies that can identify risk factors for illness. Faith Community Nursing chapter reflects current terminology from the ANA's Scope and Standards of Practice, and includes more coverage of the spiritual health of clients. Health: A Community View chapter expands its discussion of the continual challenges and strategies associated with the delivery of health care. Communicable Disease chapter includes new information about public health surveillance, outbreaks, and bioterrorism. Cultural Diversity and Community Health Nursing chapter features new content on complementary and alternative therapies.
