IB Chemistry SL/HL Topic 2: Pearson (2014) Textbook Practice Questions Chemistry SI International Baccalaureate Chemistry. Chemistry is an experimental science that combines academic study with the acquisition of practical and investigational skills. It is often called the central science as chemical principles underpin both the physical environment in which we live and all biological systems. Apart from being a subject worthy of study in its own right, chemistry is often a prerequisite for many other courses in higher education, such as medicine, biological science and environmental science.
