MOUNT LIGHTING'S GUIDE FOR CIBSE RECOMMENDED LIGHTING LEVELS

Lighting levels for hospitals and health care centres are specialised and complex, seek guidance from the C.I.B.S.E guide for interior lighting. These levels are based on the C.I.B.S.E guide for interior lighting and cover only the most common applications. Download the Guide BACK TO RESOURCES

CIBSE Recommended Lighting Levels - Mount Lighting

These guidelines highlight the important considerations for green roof planning, design, installation and maintenance, and provide guidance as to how they can be accommodated in the final green roof scheme. They aim to promote awareness of green roofs, facilitate effective planning, design and implementation of sustainable green roof projects and stimulate an increase in the uptake of green roofs on new developments and existing buildings.

CIBSE - Building Services Knowledge

CIBSE Knowledge Portal - search, view and buy CIBSE publications in PDF and hard copy, plus other building services publications and link to British standards.

CIBSE - SLL Lighting Guides

The guide has also introduced the concept of adaptive thermal comfort, in line with CIBSE TMS2 The Limits of Thermal Comfort: Avoiding Overheating in European Buildings – so the temperature threshold can change on a daily basis, depending on external conditions.

Making the grade: BB101 guidelines on ventilation – CIBSE ...

The Chartered Institution of Building Services Engineers (CIBSE) is the prime source of expertise in the Building Services industry.

CIBSE - Chartered Institution of Building Services Engineers

CIBSE updates Covid-19 guidance for winter New information on recirculation, thermal wheels and UV technology Posted in October 2020 The document reflects the onset of cooler conditions in the UK and includes additional guidance on the use of natural ventilation openings, recirculation and thermal wheels.

CIBSE updates Covid-19 guidance for winter – CIBSE Journal

CIBSE is the Chartered Institution of Building Services Engineers that was established in London, U.K. in 1976. CIBSE members belong to a global network of professional support and expertise, working in partnership with other professional bodies, construction, and engineering firms who are all dedicated to making buildings that meet the needs ...

ASHRAE, CIBSE, BSRIA, and SMACNA: A Guide to Building ...

The CIPHE method is the only guide that can be recommended for non-domestic buildings, however, as it allows a specification of the time difference between the use of appliances. Low use is deemed to have a time difference of 20 minutes, medium 10 minutes, and high five minutes. High use would be for buildings such as theatres or sports venues.

Slowing the flow: estimating water demand ... - CIBSE Journal

ASHRAE recommends dilution ventilation, laminar and other in-room flow regimes, differential room pressurisation, personalised ventilation, source-capture ventilation, filtration, and UVGI (upper room, in-room, and in the airstream). CIBSE Healthcare Group was preparing its own guidance as CIBSE Journal was going to press.

ASHRAE publishes Covid-19 guidance – CIBSE Journal

This CIBSE advice is intended to give business owners and managers an outline of ventilation systems commonly encountered in buildings to assist in the preparation to re- open workplaces. This guidance will inform considerations of safe working practices and the provision of ventilation in buildings.

CIBSE COVID-19 Ventilation Guidance

CIBSE, the Chartered Institution of Building Services Engineers, acts as a professional body for lighting in the UK and produces a series of guides giving optimum lighting requirements for a wide range of environments. See below for recommendations, or contact us to discuss your project
