Scientometrics | Volumes and issues
Scientometrics has been defined as the "quantitative study of science, communication in science, and science policy" (Hess, 1997).

Scientometrics - OECD

Scientometrics is the science of measuring and analysing science. In practice, scientometrics is often done using bibliometrics which is a measurement of the impact of publications. Modern scientometrics is mostly based on the work of Derek J. de Solla Price and Eugene Garfield.

Scientometrics 2020;124:1081–1097. In this manuscript, we examined whether the publication characteristics of various scientific disciplines exhibit age-related trends. Our analysis was based on two large data sets comprising all major scientific disciplines. The key messages include: 1) The values of measures of individual scholarly performance peak during the Golden Age, but the length of ...

Scientometrics of Hungarian researchers
Scientometrics: Definition It is the quantitative study of science output or outcome in any form, not just records or bibliographies. It comprises all the metrics studies related to science indicators, citation analyses, research evaluation, etc.
